

TOWN OF BRAINTREE

IN COUNCIL

ORDER NO: 09-014A

DATE: MAY 12, 2009

ORDERED: NATIONAL GRID

PETITION OF NATIONAL GRID FOR GAS MAIN LOCATIONS

The National Grid hereby respectfully request your consent to the locations of mains as hereinafter described for the transmission and distribution of gas in and under the following public streets, lanes, highways, and places of the Town of Braintree and the pipes, valves, governors, manholes and other structures, fixtures and appurtenances designed or intended to protect or operate said mains and accomplish the objects of said Company; and the digging up and opening the ground to lay or place same:

To install and maintain approximately 750 feet, more or less of 2 inch gas main in River Street and approximately 240 feet more or less of 2 inch gas main in Lemoyne Street, Braintree.

From the existing 2 inch gas main in River Street at Middle Street Easterly to Arnold Street and from proposed 2 inch gas main in River Street at Lemoyne Street Northerly to 29 Lemoyne Street, Braintree. All of which to replace and abandon the existing 2 inch gas main in River Street and the 1 ½ inch gas main in Lemoyne Street, Braintree.

Petition #09-014 was unanimously approved by Council with the following conditions:

- A. National Grid proposes to install and connect new gas line at the intersection of River St. and Middle St. in close proximity to BELD **115kv** underground cables located on Middle St. The contractor should clearly mark area to be excavated and contact BELD Engineering at least 48 hours prior to start of project. After clearly understanding intent and scope of work BELD would determine if on site supervision is necessary.

- B. Both River Street and Lemoyne Street have been resurfaced within the last six years. **Lemoyne Street** was a quick overlay after a water main replacement job, so that portion **may be approved with our "standard" repair specifications**. River Street was a complete reconstruction project that included early utility coordination opportunities where if really needed, the replacement of the gas main could have been accommodated without digging up a "new" road. The gas company at that time elected to do

nothing. We are now presented a proposal that would, without proper remediation, rapidly accelerate deterioration of the roadway pavement.

- C. **All trenches shall be milled and overlaid five (5) feet in width with trench repairs signed-off by the Braintree DPW.**

Passed in Council – September 15, 2009

A True Copy, Attest:

Joseph F. Powers, Town Clerk

ORDERED: NATIONAL GRID

PETITION OF NATIONAL GRID FOR GAS MAIN LOCATIONS

The National Grid hereby respectfully request your consent to the locations of mains as hereinafter described for the transmission and distribution of gas in and under the following public streets, lanes, highways, and places of the Town of Braintree and the pipes, valves, governors, manholes and other structures, fixtures and appurtenances designed or intended to protect or operate said mains and accomplish the objects of said Company; and the digging up and opening the ground to lay or place same:

To install and maintain approximately 750 feet, more or less of 2 inch gas main in River Street and approximately 240 feet more or less of 2 inch gas main in Lemoyne Street, Braintree.

From the existing 2 inch gas main in River Street at Middle Street Easterly to Arnold Street and from proposed 2 inch gas main in River Street at Lemoyne Street Northerly to 29 Lemoyne Street, Braintree. All of which to replace and abandon the existing 2 inch gas main in River Street and the 1 ½ inch gas main in Lemoyne Street, Braintree.

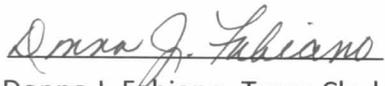

Petition #09-014 was unanimously approved by Council with the following conditions:

- A. National Grid proposes to install and connect new gas line at the intersection of River St. and Middle St. in close proximity to BELD **115kv** underground cables located on Middle St. The contractor should clearly mark area to be excavated and contact BELD Engineering at least 48 hours prior to start of project. After clearly understanding intent and scope of work BELD would determine if on site supervision is necessary.
- B. Both River Street and Lemoyne Street have been resurfaced within the last six years. **Lemoyne Street** was a quick overlay after a water main replacement job, so that portion **may be approved with our "standard" repair specifications**. River Street was a complete reconstruction project that included early utility coordination opportunities where if really needed, the replacement of the gas main could have been accommodated without digging up a "new" road. The gas company at that time elected to do nothing. We are now presented a proposal that would, without proper

remediation, rapidly accelerate deterioration of the roadway pavement. Therefore the petition should only be approved on the condition that **the full length of River Street affected by the trench work be milled and overlaid 1 ½ inches deep by the petitioner within 1 year of the installation of the gas main, but not less than 3 months after placement of a neat 4 inch deep hot mix trench repair.**
