Mr. Carey co-founded Migration Productions in 1996 with Jim Grady and the two have produced all its productions. Shawn also provides almost all digital photography used in their productions.

RIDE to End Alzheimer's
Rye, New Hampshire
June 11, 2016
PAUL MCSOLEY
pmcsoley@braintreema.gov

My wife Patty and I have signed up for the RIDE to End Alzheimer's, which will take place on Saturday, June 11, 2016, in Rye, New Hampshire. Patty's father died in 2010 from Alzheimer's, so raising money has been an important personal mission for us since then, as we have participated in Walks to End Alzheimer's on an annual basis. This year we are hitting the road together on our bikes with other cyclists to ride in honor or memory of their loved ones struggling with Alzheimer's disease.

The Alzheimer's Association is the world's largest not for profit funder of Alzheimer's research. They have funded every significant advancement that has been made in the field.

90% of funds raised through RIDE to End Alzheimer's support the Alzheimer's Association's research grant program.

10% of the funds raised provide care and support for families affected by Alzheimer's disease in Massachusetts and New Hampshire.

I'm hoping I can count on you to join our list of donors. Funds raised will make an important difference in the lives of those with Alzheimer's and their families through supporting critical research. Any and all amounts are tax-deductible and are greatly appreciated. Thank you for considering my request.

To donate on my behalf, please make check payable to **ALZHEIMER'S ASSOCIATION** (please indicate my name on the check) and forward to me, or mail to:

The Marge Crispin Center is preparing for the annual U.S. Postal Food Drive.

Each year the National Association of Letter Carriers conducts a nationwide food drive to support a local food pantry. This year the food drive will take place on Saturday, May 14th.

Residents may leave their non-perishable donations on the front steps, near the mailbox, and the letter carriers will pick them up when they deliver the mail.

The letter carriers in Braintree have always been strong, enthusiastic supporters of this event. The food pantry at the Marge Crispin Center will be the grateful recipients of the endeavor again this year.

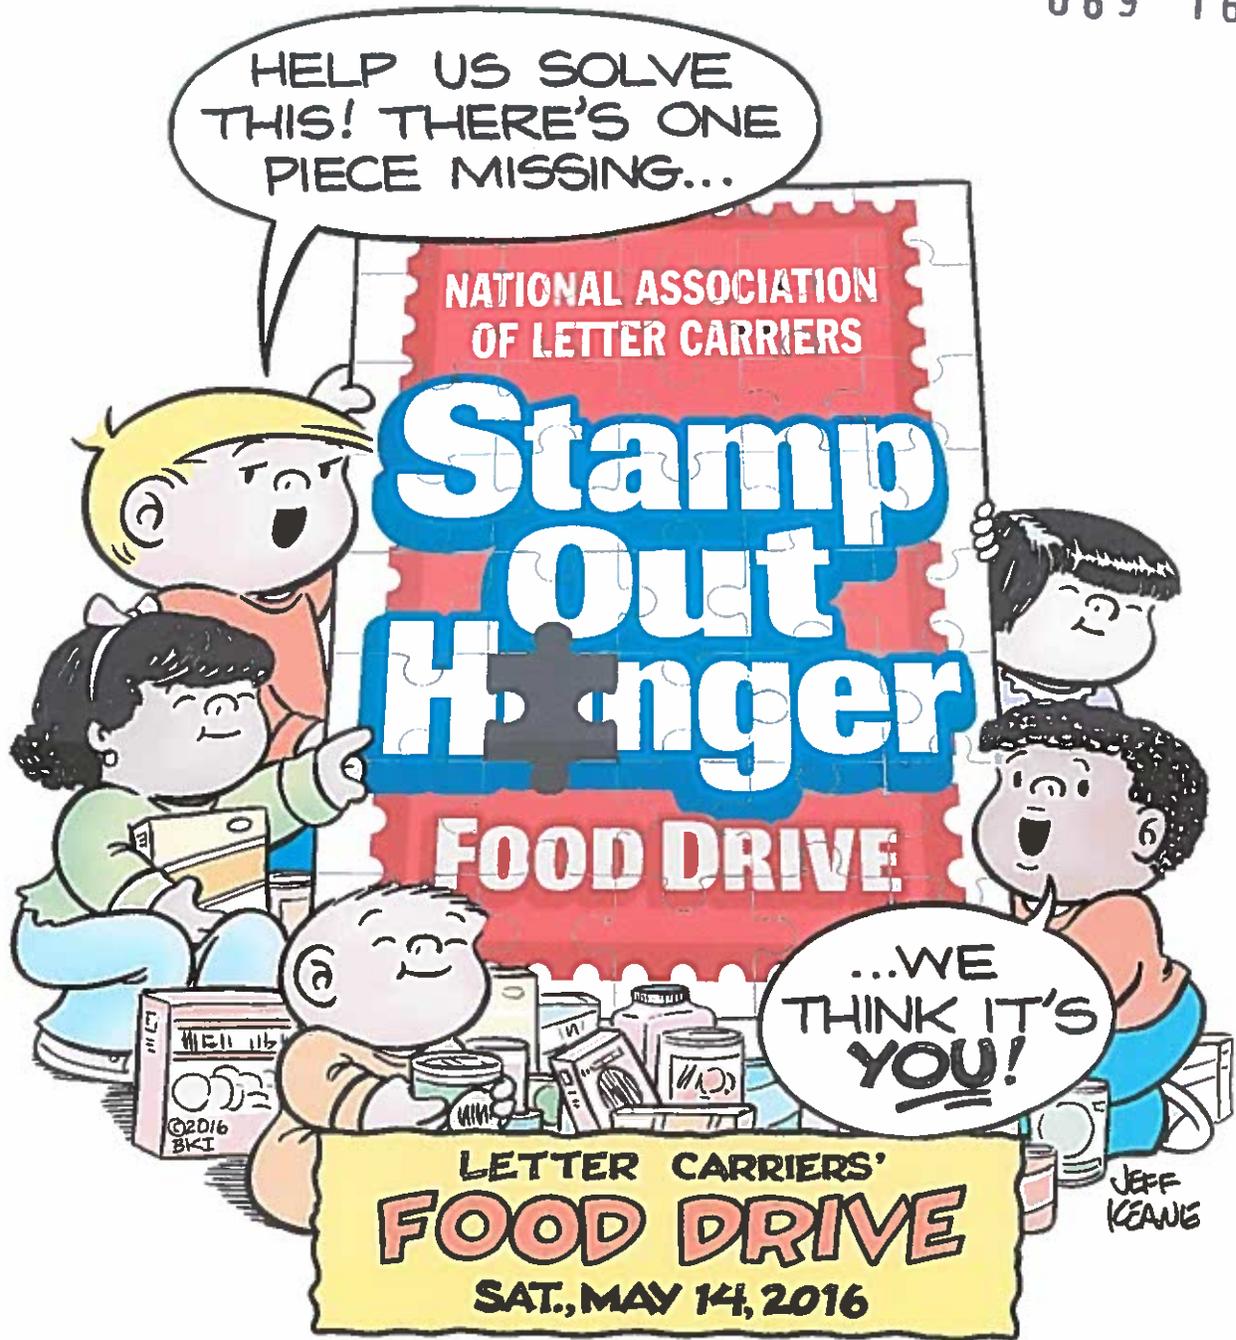

We appreciate all of the work that our local postal workers do for this drive and we hope that the residents will help us to provide for our needy neighbors here in Braintree, on Saturday, May 14th.

Thank you,

Ann Toland and Pat Conrad

WHEREAS: It has come to the attention of the Braintree Town Council that approximately 36,000 Verizon workers in the company's landline and FiOS division are currently on strike: and

WHEREAS: Verizon forced the workers on strike by demanding that they allow increased off-shoring and contracting-out of good jobs from communities even after Verizon has already sent thousands of formerly good, union job overseas: and

WHEREAS: Verizon workers are fighting for good, family-supporting jobs: and

WHEREAS: Residents and businesses deserve high-quality telecommunication services, and state-of-the-art fixed broadband services not a network that Verizon chooses to neglect, especially in an emergency, by a low-skill, poorly-motivated replacement workforce: and

WHEREAS: Verizon has made \$39 billion in profit over the past 3 years and paid its top five executives more than \$230 million over the past five years: and

BE IT THEREFORE RESOLVED: That the Town of Braintree will not enter into any new contracts or obligations to purchase Verizon products or services while the strike continues; and

BE IT THEREFORE RESOLVED: That the Town of Braintree will review any current contracts or obligations to purchase Verizon products or services and end any contracts or obligations where permissible by the terms of the contract and the parties obligations to one another: and

BE IT THEREFORE RESOLVED: That the Town of Braintree urges Verizon CEO Lowell McAdam to end the Verizon campaign to destroy good jobs; and

BE IT THEREFORE RESOLVED: That the Town of Braintree go on record in support of the striking Verizon workers

FINALLY BE IT THEREFORE RESOLVED that the Town of Braintree finds good jobs and good telecommunications services are vital to local communities and supports striking Verizon workers in the fight for good jobs that benefit for every worker and their families, in our community.

Dear Ms. Cimino:

Please see the below comments for the National Grid Gas Petitions.

BELD Engineering has reviewed the NGRID Gas Petition #16-017 Spruce St & River St.

PLEASE NOTE: BELD has two 115kV transmission lines located on River St and in close proximity to the proposed scope of work. The 115kV line is a pressurized oil filled pipe type design encased in a thermal sand material with no protective concrete.

NGRID Gas should contact BELD Engineering prior to excavating near the 115kV transmission line. BELD will provide on site safety personnel and engineering support at no cost to the project.

Please contact me with any questions or concerns.

RE: National Grid Gas Main Petition, 16-014

The DPW has reviewed the subject petition and the accompanying sketch for the new gas main location and have the following recommendations:

16-014- Hillard Court, install and maintain approximately 310 feet of 2 inch gas main from Jersey Ave. easterly to Spruce St. Ext. And Spruce St. Ext 120 feet northerly from Hillard Ct. to house #55. These Streets are not under moratorium. The Town intends to resurface these streets this year, so prompt completion of the gas main installation would avoid coordination problems with the Town’s contractor. We’d recommend that the petition be granted under the normal conditions, with emphasis on the requirements that the gas main be laid outside of the trench of the water mains in service and that the trench pavement not be left low for any length of time; We also recommend that the following requirement be added to the permit, if it is to be granted:

“Neither National Grid nor any of its contractors is authorized to close any street or to close a direction of travel to facilitate their work without authorization from the Director of the Department of Public Works or the Highway Superintendent. The Chief of Police can also authorize a closure for a police or fire emergency. Construction zone traffic safety issues are to be addressed by using appropriate traffic control signs and devices and the use of police officers for traffic control to safely guide traffic through the work zone. If a closure is authorized by the DPW, it shall not be implemented until signs and police officers (where needed) are properly in place in conformity with the written plan prepared by the contractor’s engineer and approved by the DPW and Police Department.”

RE: National Grid Gas Main Petition, 16-021

The DPW has reviewed the subject petition and the accompanying sketch for the new gas main location and have the following recommendations:

16-021- West Street, 1,404 feet of 4 inch gas main from the existing 4 inch main at house # 330 northerly to Herbert Road. Ellsmoore Terrace, 314 feet of 2" gas main from West Street to Colby Road, and Colby Road 314 feet of 2" gas main from Ellsmoore Terrace southerly to the end of the gas main. These sections of roadway are not under moratorium. The Town intends to complete the reconstruction of Ellsmoore Terrace and Colby road later this year, so prompt completion of the gas main installation would avoid coordination problems with the Town's contractor. We'd recommend that the petition be granted under the normal conditions, with emphasis on the requirements that the gas main be laid outside of the trench of the water mains in service and that the trench pavement not be left low for any length of time; We also recommend that the following requirement be added to the permit, if it is to be granted:

"Neither National Grid nor any of its contractors is authorized to close any street or to close a direction of travel to facilitate their work without authorization from the Director of the Department of Public Works or the Highway Superintendent. The Chief of Police can also authorize a closure for a police or fire emergency. Construction zone traffic safety issues are to be addressed by using appropriate traffic control signs and devices and the use of police officers for traffic control to safely guide traffic through the work zone. If a closure is authorized by the DPW, it shall not be implemented until signs and police officers (where needed) are properly in place in conformity with the written plan prepared by the contractor's engineer and approved by the DPW and Police Department."

RE: National Grid Gas Main Petition, 16-026

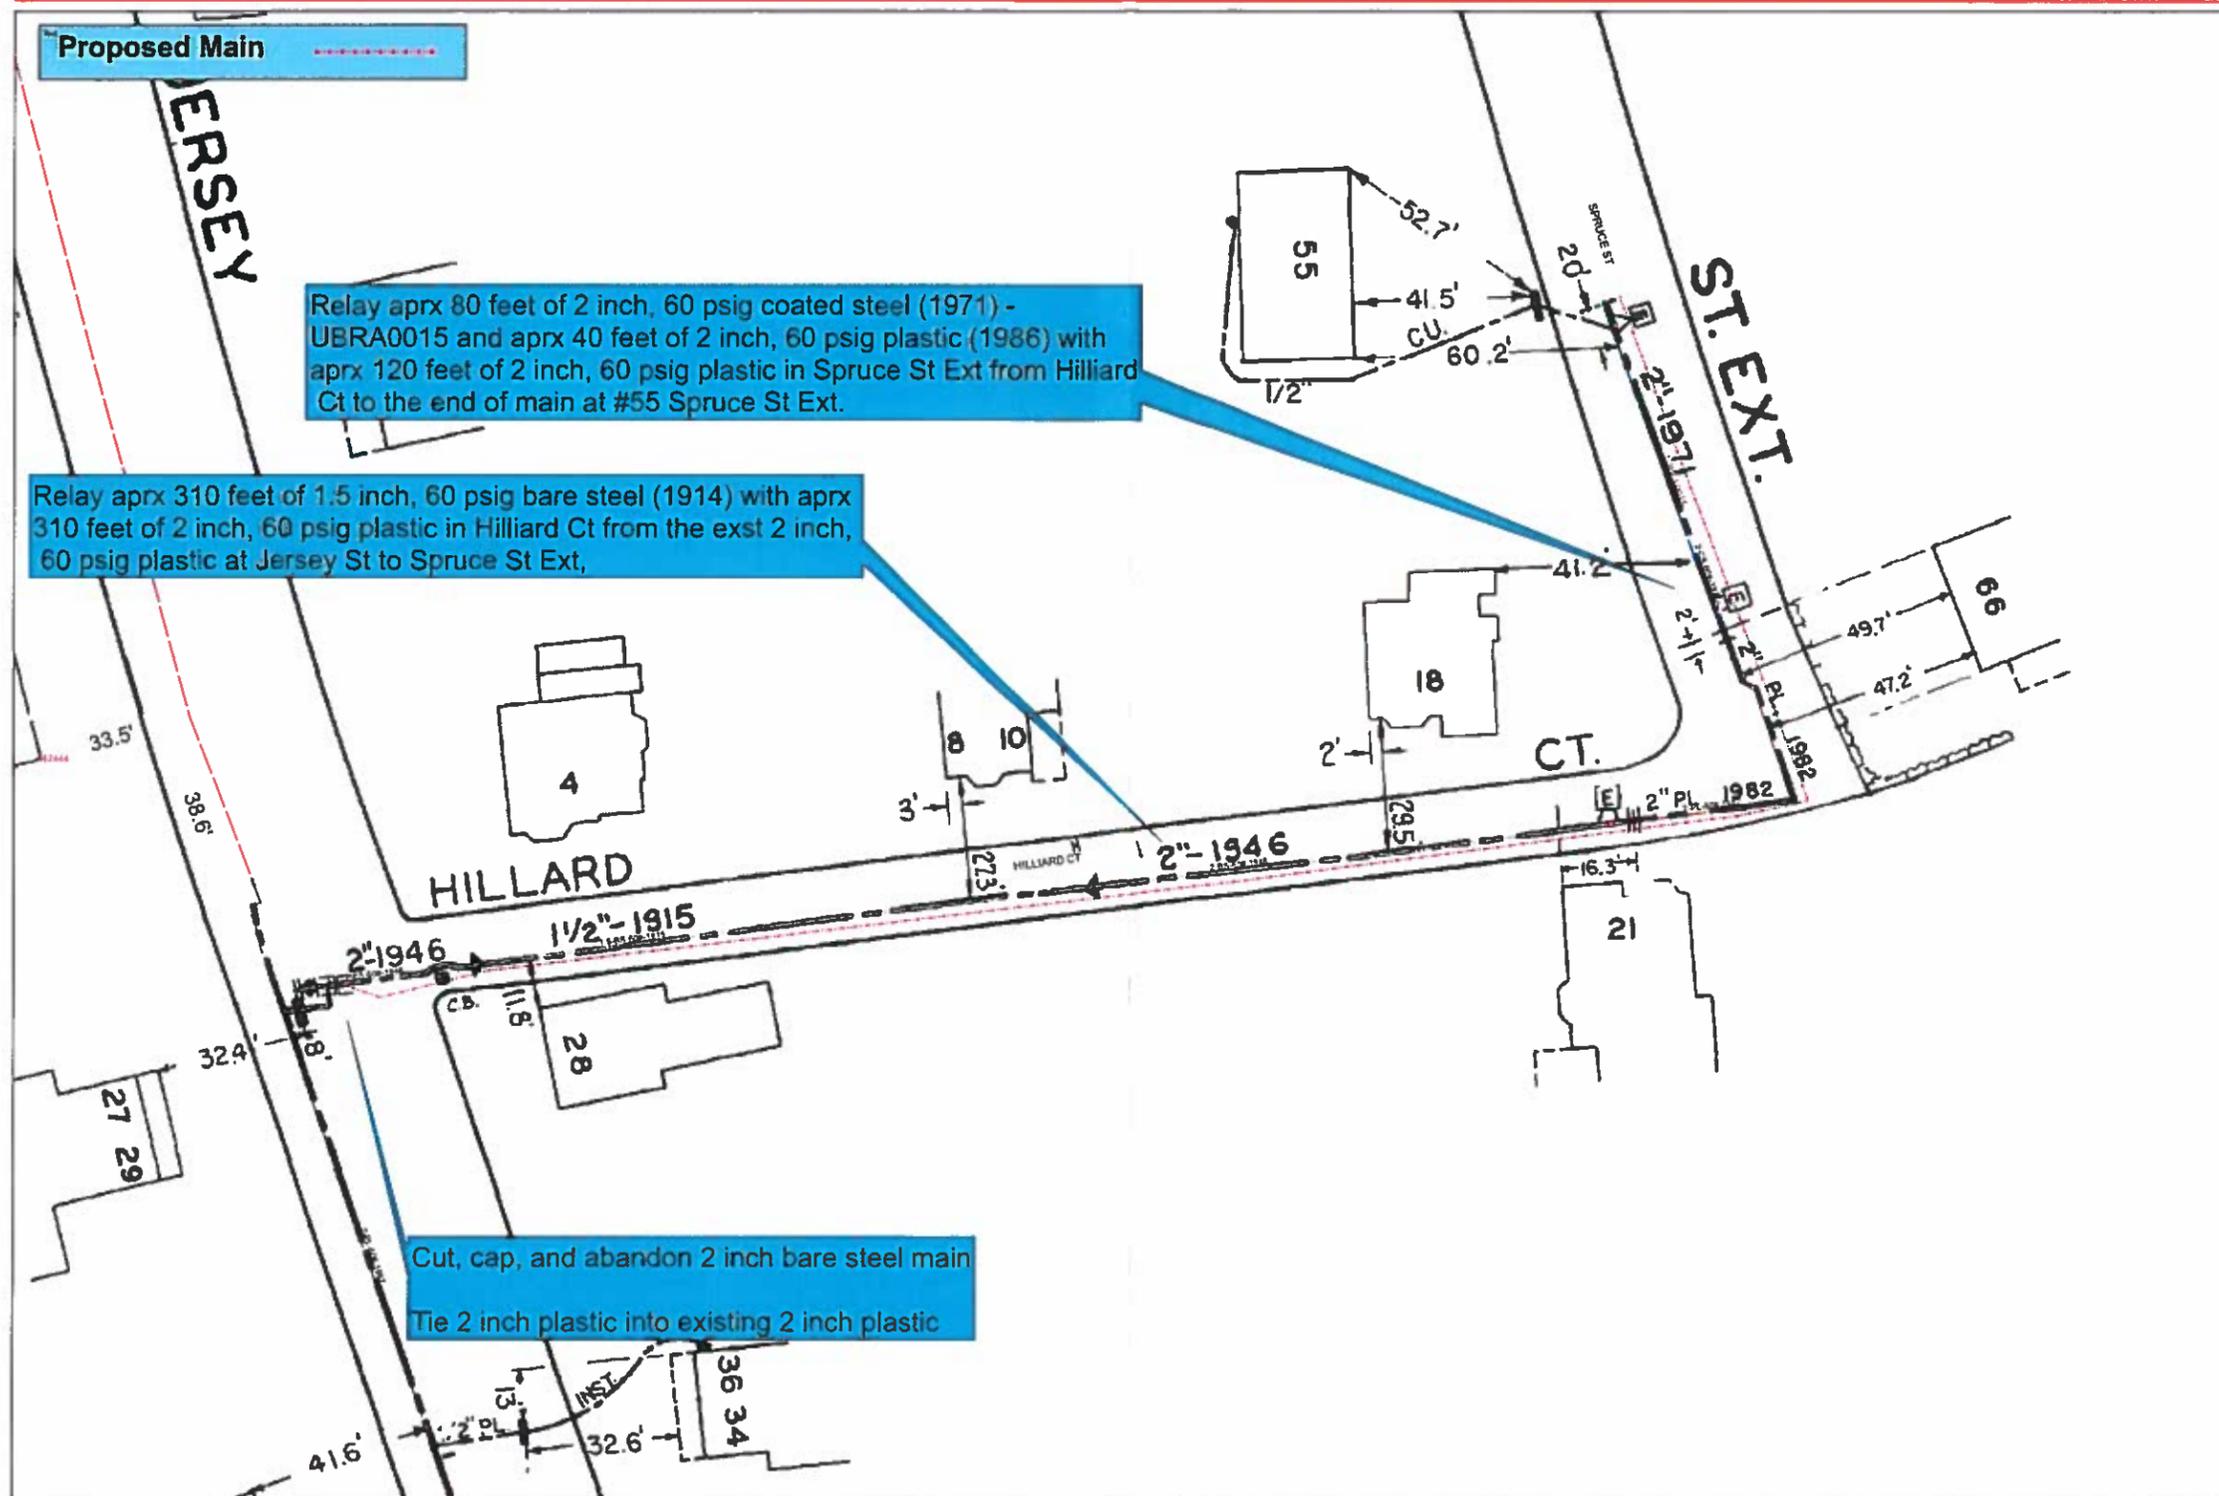

The DPW has reviewed the subject petition and the accompanying sketch for the new gas main location and have the following recommendations:

16-026- River Street, install and maintain approximately 265 feet of 6 inch gas main from Vine Street westerly to the existing main at house #106. And Vine Street 475 feet of 3 inch gas main from River Street northerly to house #11. This section of River Street is under the moratorium. We would recommend that the petition for this section only be granted with conditions specified in the moratorium. Vine Street is not under the moratorium. The Town intends to resurface Vine Street this year, so prompt completion of the gas main installation would avoid coordination problems with the Town's contractor. We'd recommend that the petition for Vine Street be granted under the normal conditions, with emphasis on the requirements that the gas main be laid outside of the trench of the water mains in service and that the trench pavement not be left low for any length of time; We also recommend that the following requirement be added to the permit, if it is to be granted:
