

TOWN OF BRAINTREE

IN COUNCIL

ORDER NO: 10-058

DATE: August 18, 2010

ORDERED: LIGHTOWER FIBER NETWORK

PETITION OF LIGHTOWER FIBER NETWORK TO INSTALL

COMMUNICATION CONDUIT AND CABLE

To install and maintain approximately 118 feet, more or less of single 4", Schedule 40 PVC, concrete encased communication conduit and cable. Conduit will run at a depth of 20" from Pole #8517 on Washington Street then easterly across Washington Street onto asphalt driveway and to point of entry into 400 Washington Street. Additionally, a single 4" x 10' galvanized steel riser will be installed on Pole #8517.

Petition #10 058 was unanimously approved by Council with the following conditions:

BELD - A Lighttower/Contractor representative shall contact BELD and Verizon to coordinate and schedule the excavation plan and attachment to Pole #51. This pole is Verizon/BELD joint owned and maintained by Verizon.

DPW - The area in front of 400 Washington Street was resurfaced with new curbs and sidewalks in 2003 and so it is outside of our 5-year moratorium, but the pavements are still in excellent condition. It is our recommendation that this petition should be approved with our "standard" repair specifications, and that Lighttower be advised that 20" depth is insufficient and that must be increased to 24" depth of cover, minimum. The riser on the pole must be coordinated with other utilities to avoid crossing and must not decrease pedestrian clearance through the adjacent sidewalk. The curb-to-curb width may not allow for the traffic management scheme presented. The plan should be revised to show three phases each going 1/3 of the way to allow for safe two-way traffic operation and should incorporate MUTCD standard signs, sign spacing (adjusted to field conditions) and tapers. A schematic typical plan is enclosed.

Passed in Council – September 21, 2010

A True Copy, Attest:

A handwritten signature in black ink, appearing to read 'J. F. Powers', written over a horizontal line.

Joseph F. Powers, Town Clerk
