

TOWN OF BRAINTREE

IN COUNCIL

ORDER NO: **12-011 (A)**

DATE: March 22, 2012

ORDERED: NATIONAL GRID

PETITION OF NATIONAL GRID FOR GAS MAIN LOCATIONS

The National Grid hereby respectfully request your consent to the locations of mains as hereinafter described for the transmission and distribution of gas in and under the following public streets, lanes, highways, and places of the Town of Braintree and the pipes, valves, governors, manholes and other structures, fixtures and appurtenances designed or intended to protect or operate said mains and accomplish the objects of said Company; and the digging up and opening the ground to lay or place same:

To install and maintain approximately 170 feet, more or less of 12 inch gas main in Quincy Avenue, Braintree. From the existing 12 inch gas main at House #42-#44 Northerly to the existing 12 inch gas main at bridge.

Petition #12 011 (A) was unanimously approved by Council with the following conditions:

BELD has underground 15kV distribution line(s) at various locations along the proposed route and a **115kV oil filled transmission line** at the intersection of Hayward St. and Quincy Ave. These utilities will be located and marked through the Dig Safe process. If excavating in close proximity to the 115kV oil filled transmission line the contractor shall notify the BELD Engineering Department at least (48) hours prior to excavation. BELD will provide onsite safety personnel at no cost to National Grid.

DPW - Quincy Avenue at the northerly limit the Braintree–Weymouth Landing PWED project, 170 feet in Braintree’s section of Quincy Avenue. The Town’s section is currently under construction as part of the Braintree-Weymouth Landing PWED project. It is essential that this work be completed this month so as not to delay our roadway / sidewalk contractor. It is our recommendation that this part of the petition should be approved with our “standard” repair specifications, with a final pavement being maintained flush with the surrounding pavement, and completion this month.

ORDER NO: 12-011 (B)

DATE: March 22, 2012

ORDERED: NATIONAL GRID

PETITION OF NATIONAL GRID FOR GAS MAIN LOCATIONS

The National Grid hereby respectfully request your consent to the locations of mains as hereinafter described for the transmission and distribution of gas in and under the following public streets, lanes, highways, and places of the Town of Braintree and the pipes, valves, governors, manholes and other structures, fixtures and appurtenances designed or intended to protect or operate said mains and accomplish the objects of said Company; and the digging up and opening the ground to lay or place same:

To install and maintain approximately 3,100 feet, more or less of 8 inch gas main in Quincy Avenue, Braintree. From the existing 12 inch gas main at the Northerly end of the bridge to the existing 8 inch main at Glenrose Avenue and from the existing 8 inch gas main at Hill Avenue Northerly to the Braintree Town Line.

Petition #12 011 (B) was unanimously approved by Council with the following conditions:

BELD has underground 15kV distribution line(s) at various locations along the proposed route and a **115kV oil filled transmission line** at the intersection of Hayward St. and Quincy Ave. These utilities will be located and marked through the Dig Safe process. If excavating in close proximity to the 115kV oil filled transmission line the contractor shall notify the BELD Engineering Department at least (48) hours prior to excavation. BELD will provide onsite safety personnel at no cost to National Grid.

DPW - National Grid's will mill and overlay Quincy Avenue within their work area curb-to-crown (after a suitable period to ensure that trench settlement is substantially completed), to replace the thermoplastic pavement markings effected by their work, and to replace any curbs and sidewalks affected by the installation of the gas main. Work shall not begin until the Mitigation Agreement between Twin Rivers Technologies Manufacturing Corporation and the Mayor Joseph C. Sullivan is finalized.
