OFFICE OF THE TOWN COUNCIL

– AGENDA –

Tuesday, APRIL 28, 2020 • Horace T. Cahill Auditorium, Town Hall • Starting Time: 7:30PM

Governor Charles Baker has declared a state of emergency in Massachusetts to support the state's response to COVID-19 (Coronavirus). According to the Town of Braintree's "Temporary Emergency Policy for Remote Participation under the Open Meeting Law Pursuant to Massachusetts Executive Order of March 12, 2020," the Town Council will meet fully remotely for the health and safety of Councilors and the public during the Massachusetts State of Emergency. The Town Council will be using Zoom software to run meetings online for the immediate future. The Town continues to monitor the situation through the Health Department and specific questions should be directed to Jean McGinty, Public Health Nurse at 781-794-8094 or Marybeth McGrath, Director of Health, at 781-794-8095.

Motion: by Councilor Ringius to OPEN the Public Hearing for Order 20 005

Second: by Councilor Ryan

Vote: For (9 – Boericke, Connors, Flaherty, Hume, Mackin, O’Brien, Ringius, Ryan, Sciascia),
Against (0), Absent (0), Abstain (0)

Council President Hume asked for a recommendation from the Councilor Boericke, Chairwoman of the Committee of Ways & Means.

Councilor Boericke stated the committee met earlier this evening and Order 20 005 was discussed. The Committee unanimously voted for a favorable recommendation to the full Council. As a reminder to residents the Mayor has asked the Council to support putting the debt exclusion questions on a ballot for the community to decide if these are sound and valuable investments for the town to make.

Council President Hume asked if any member of the Council or General Public want to speak on Order 20 005?

Mayor Kokoros stated when I did the review of the finances and the ability to fund any of these items without a debt exclusion, I came to the conclusion that it was the only way to fund these items. It is my job to make sure the operational budget is funded properly and services are provided to our residents. This is the only way to move forward with these projects. I have spent a lot of time touring all our town buildings from the boiler rooms to the roofs. This is an important matter for our future and our children’s future.

Councilor O’Brien stated I am not confused when I say I voted against East feeling it should have been a brand new school as South will be. I live in East Braintree now but grew up in South Braintree. There has always been an East VS South thing. Now you are sending a message to the East kids saying fixing and rehabbing your school is OK but South folks are going to get a brand new school. I will not approve this because I feel there should have been built one new middle school for all but I will vote in favor later on to put the debt exclusion questions on the ballot for the residents to vote.

Council President Hume stated with the School Building Authority they submitted SOI on East to the MSBA and the feasibility study from the MSBA tells the town whether they will fund renovations or new buildings. MSBA said to do some new construction with renovations in order for them to partner with us. The MSBA said for South new construction was the most cost effective. I was told due to the shape of the South building it would require more time, therefore cost to renovate.

Dr. Frank Hackett stated a South renovation project would have taken 36 months where new construction would be 18 months and time is money. I do not believe East is getting anything less than South will get.

Sean Powers, former Councilor At Large and former School Committee member. I rise in support of this. I went to East. It is a generational and moral responsibility to our kids so they can win and succeed in a 21st century economy that changes constantly. To me it would be about \$160 per year for me personally. This is a community town-wide issue. Let's do this and get it passed.

Carl Johnson stated our buildings have been neglected. Carl Johnson stated for the record the South Shore plaza generates 9 ½% of the total revenue of the town in real estate taxes. DOR also have this information on record.

Mr. Mulligan asked if a PLA will be signed with the Unions to do the work.

Dan Clifford, Saint Claire Street stated we have a short window of time to get this right. To the seniors Mayor Kokoros and his staff are looking at ways to mitigate this debt exclusion.

Laurie Castignetti stated it is not always just the seniors who do not pass debt exclusions. There are also young families in this town on very tight incomes.

Council President asked if there is anyone else wishing to speak? Hearing none.

President Hume stated there will be meetings with the Mayor and Councilors to meet and answer questions on the debt exclusion right up to March 28, 2020. There are documents on the town website with questions and answers that have been asked. There is also a sign up to receive email communications.

Motion: by Councilor Ringius to CLOSE the Public Hearing for Order 20 005

Second: by Councilor Ryan

Vote: For (9 – Boericke, Connors, Flaherty, Hume, Mackin, O'Brien, Ringius, Ryan, Sciascia),
Against (0), Absent (0), Abstain (0)

Councilor Ringius read the Motion:

MOTION:

That the Town appropriate the amount of Eighty-Six Million Five Hundred Eighty-Five Thousand Nine Hundred Nineteen Dollars (\$86,585,919) for the purpose of paying costs of designing, constructing, equipping and furnishing a new South Middle School, to be located behind the existing South Middle School at 232 Peach Street in Braintree, Massachusetts, including the payment of all costs incidental or related thereto (the "Project"), which school facility shall have an anticipated useful life as an educational facility for the instruction of school children for at least 50 years, and for which the Town may be eligible for a grant from the Massachusetts School Building Authority ("MSBA"), said amount to be expended under the direction of the School Building Committee. To meet this appropriation the Treasurer, with the approval of the Mayor, is authorized to borrow said amount under M.G.L. c. 44, or pursuant to any other enabling authority; provided that any appropriation hereunder shall be subject to and contingent upon an affirmative vote of the Town to exempt the amounts required for the payment of interest and principal on said borrowing from the limitations on taxes imposed by M.G.L. 59, §21C (Proposition 2 ½). The Town acknowledges that the MSBA's grant program is a non-entitlement, discretionary program based on need,

as determined by the MSBA, and any project costs the Town incurs in excess of any grant approved by and received from the MSBA shall be the sole responsibility of the Town; provided further that any grant that Town may receive from the MSBA for the Project shall not exceed the lesser of (1) fifty three and ninety six hundredths percent (53.96%) of eligible, approved project costs, as determined by the MSBA, or (2) the total maximum grant amount determined by the MSBA; and that the amount of borrowing authorized pursuant to this vote shall be reduced by any grant amount set forth in the Project Funding Agreement that may be executed between the Town and the MSBA. Any premium received upon the sale of any bonds or notes approved by this vote, less any such premium applied to the payment of the costs of issuance of such bonds or notes, may be applied to the payment of costs approved by this vote in accordance with M.G.L. c. 44, §20, thereby reducing the amount authorized to be borrowed to pay such costs by a like amount.

Against (0), Absent (0), Abstain (0)

Councilor Ringius read the Motion:

MOTION:

That the Town appropriate the amount of Five Million Dollars (\$5,000,000.00) for the purpose of paying costs of replacing the roofs at Highlands Elementary School (144 Wildwood Avenue, Braintree MA), Flaherty Elementary School (99 Lakeside Drive, Braintree, MA), Hollis Elementary School (482 Washington Street, Braintree, MA), Liberty Elementary School (49 Proctor Road, Braintree, MA), Monatiquot Kindergarten (25 Brow Avenue, Braintree, MA) and Morrison Elementary School (260 Liberty Street, Braintree, MA), including the payment of all costs incidental or related thereto (the "Project"), which proposed repair projects would materially extend the useful life of the schools and preserve assets that otherwise are capable of supporting the required educational program, and for which the Town has applied for a grant from the Massachusetts School Building Authority ("MSBA"), said amount to be expended under the direction of the School Building Committee. To meet this appropriation the Treasurer, with the approval of the Mayor, is authorized to borrow said amount under M.G.L. Chapter 44, or pursuant to any other enabling authority. The Town acknowledges that the MSBA's grant program is a non-entitlement, discretionary program based on need, as determined by the MSBA, and if the MSBA's Board of Directors votes to invite the Town to collaborate with the MSBA on this proposed repair project, any project costs the Town incurs in excess of any grant that may be approved by and received from the MSBA shall be the sole responsibility of the Town; provided that any appropriation hereunder shall be subject to and contingent upon an affirmative vote of the Town to exempt the amounts required for the payment of interest and principal on said borrowing from the limitations on taxes imposed by M.G.L. 59, Section 21C (Proposition 2 1/2); and that, if invited to collaborate with the MSBA on the proposed repair project, the amount of borrowing authorized pursuant to this vote shall be reduced by any grant amount set forth in the Project Funding Agreement that may be executed between the Town and the MSBA. Any premium received upon the sale of any bonds or notes approved by this vote, less any such premium applied to the payment of the costs of issuance of such bonds or notes, may be applied to the payment of costs approved by this vote in accordance with M.G.L. c. 44, §20, thereby reducing the amount authorized to be borrowed to pay such costs by a like amount.

Councilor Boericke stated the committee met earlier this evening and Order 20 007 was discussed. The Committee unanimously voted for a favorable recommendation to the full Council.

Council President Hume asked if any member of the Council or General Public want to speak on Order 20 007?

Council President asked if there is anyone else wishing to speak? Hearing none.

Councilor O’Brien stated I graduated BHS in 1976. If you have a house built in 1972 would you rip it down and rebuild it? How much is that going to cost us? Think it through folks. I am going to vote against this. It will cost a lot in taxes.

Dr. Frank Hackett stated we will be submitting a Statement of Interest with the MSBA. If they invite us to the feasibility study the MSBA would decide on the options and discussion would take place after that.

Councilor Boericke stated the committee met earlier this evening and Order 20 008 was discussed. The Committee unanimously voted for a favorable recommendation to the full Council.

Council President Hume asked if any member of the Council or General Public want to speak on Order 20 008?

Carol Driscoll, Brewster Avenue stated we are founding members of the Braintree School Safety Advocacy Group. We are concerned parents looking for ways to reduce a violent attack at one of our schools. We have spent the past two years researching best practices. We have concluded enhancing security is the fastest way to keep our kids safe. Please accept our groups full support to pass Order 20 008.

Councilor Ringius stated this is a priority of my own. Anything we can do to enhance the safety and security of our children during the school day. I am very happy to move forward with this.

Councilor Boericke stated the money would be used for security assessments.

Council President asked if there is anyone else wishing to speak? Hearing none.

Council President Hume asked for a recommendation from the Councilor Boericke, Chairwoman of the Committee of Ways & Means. Councilor Boericke stated the committee met earlier this evening and Order 20 009 was discussed. The Committee unanimously voted for a favorable recommendation to the full Council.

Council President Hume asked if any member of the Council or General Public want to speak on Order 20 009?

Councilor Ringius stated this vote is just to put the debt exclusion question on a ballot. I do think it is the voters right to choose.

Lisa Heger, former School Committee Chairperson stated there are a lot of facts and information on the debt exclusion website through braintreema.gov. The calculator is there to see what the impact would be to your taxes. If you have questions please reach out to us. Contact information is on the website. We have PTO meetings set up and many other meetings to get information out.

A resident asked what the backup plan if this debt exclusion does not pass. Who will pay for this and how will they be maintained.

Dr. Frank Hackett stated that back up plan is in the works. If it does not pass there would clearly be implications. Everything is on the table. We are very aware the buildings we have now need to be properly maintained. We do have some opportunity to partner with the town maintenance department.

Mayor Kokoros stated at this point we are not sure if MSBA will help us with the BHS. We may need to do phases of repair. Overall the High School will be determined by what help we get from the State.

Ms. Chafe stated the debt exclusion scares me. We have issues with a lot of things in this town like the Fire Station and the Water Treatment Plant. Where do we get that money from. I personally think South can be rehabbed instead of rebuilt.

Council President asked if there is anyone else wishing to speak? Hearing none.

Council President Hume read a statement from John Goldrosen, Assistant Town Solicitor to please continue this item, without action, until the March 17th meetings of the Ways & Means Committee and the Town Council. The unit owner is awaiting approval of a proposed loan modification agreement with her lender. If the agreement is approved, the scheduled foreclosure will be cancelled and there would be no need for any Town action. The decision on the loan modification agreement probably won’t be made before the next scheduled Council meeting on March 4th, and so I am requesting the continuance until March 17th.

• **20 016 Council President: Re-Appointment Town Auditor or take up any action relative thereto**

Council President Hume asked for a recommendation from the Councilor Boericke, Chairwoman of the Committee of Ways & Means.

Councilor Boericke stated the committee met earlier this evening and Order 20 016 was discussed. Clifton Larson Allen has been the Town Auditor for the past three years and specializes in Municipal Government. CLA revised the contract and it will be a \$25,000 savings to the town over the life of the contract which is three years. It is noted there was a request that in 2 years the W&M begin looking at multiple vendors to be sure we get the best value for the next contractual term. The Committee unanimously voted for a favorable recommendation to the full Council.

Councilor O'Brien stated I want to thank Clifton Larson Allen. I do not think we could find a better firm to help us with all we go through in this job. You are a valued entity in this organization. I think in two years we will come to the same conclusion.

Councilor Ryan stated I am in support of this re-appointment of Town Auditors. I have been on the Council for 12 years and have seen the different auditors we have had. I feel with 5 new Council members and a new Mayor it is good to have a strong Town Auditor who is familiar with the Town.

Dan Sullivan, Town Auditor stated thank you for the past three years on behalf of Shawn McGoldrick and Hannah York, it has been a pleasure working for Braintree.

President Hume stated I served on the Council now for 6 years. In that time for Town Auditors there was an individual, a firm and then putting this position out to bid and interviewing many I feel there is no one better to serve our needs. I support this and look forward to working with you again.

Council President Hume asked if any member of the Council or General Public want to speak on Order 20 016?

Council President asked if there is anyone else wishing to speak? Hearing none.

Councilor Ringius read the Motion:

MOTION:

Pursuant to Section 2-8 (A) of the Charter of the Town of Braintree the Town Council appoints Clifton Larson Allen (CLA) as Town Auditor for a three year contract effective April 24, 2020 through April 23, 2023.

• **20 019 Mayor: Transfer Funds from Human Resources Salary Reserve or take up any action relative thereto**

Council President Hume asked for a recommendation from the Councilor Boericke, Chairwoman of the Committee of Ways & Means. Councilor Boericke stated the committee met earlier this evening and Order 20 019 was discussed. The monies are not new financial obligations they are transfers from the Human Resource Reserve Account set aside to fund union contracts. The Committee unanimously voted for a favorable recommendation to the full Council.

Councilor O'Brien stated please note I feel the 2-3-2 contract is a rich contract. I will rise to support this because I do know the funds have been set aside.

Councilor Ryan stated I will support this. This has been negotiated with the Union in good faith. The 2-3-2 is a fair and reasonable contract.

Council President Hume stated I will support this for the working men and women who work for the Town of Braintree.

Council President Hume asked if any member of the Council or General Public want to speak on Order 20 019?

Council President asked if there is anyone else wishing to speak? Hearing none.

Councilor Ringius read the Motion:

MOTION:

That the Town vote to amend the wage and salary classification schedules, as most recently amended by transferring the sum of \$9,351.76 for the purpose of funding a wage increase as detailed in the Memorandum of Agreement (MOA) for the Braintree Library Staff Association, MLSA Local 4928, AFT Massachusetts, AFL-CIO, (BLSA) effective July 1, 2019, and for this purpose, the sum of \$9,351.76 be transferred from the Human Resources/ Program 04- Employee Benefits/ Benefits Reserve 5179 and further, that the Director of Municipal Finance is authorized to allocate said sums to and among the various accounts affected thereby in such amounts as are proper and required. In anticipation of approval of these agreements, funds were appropriated to a salary reserve account in the previously approved Fiscal Year 2020 budget.

Motion: by Councilor Ringius to Approve Order 20 019

- **20 020 Mayor: Appointment – Cultural Council, Anne Stuart or take up any action relative thereto**

Council President Hume asked for a recommendation from the Councilor Boericke, Chairwoman of the Committee of Ways & Means. Councilor Boericke stated the committee met earlier this evening and Order 20 020 was discussed. The Committee unanimously voted for a favorable recommendation to the full Council.

Council President Hume asked if any member of the Council or General Public want to speak on Order 20 020?

Councilor Flaherty stated I feel Ms. Stuart is a really good fit for this position and I support her fully.

Council President asked if there is anyone else wishing to speak? Hearing none.

Councilor Ringius read the Motion:

MOTION: To Approve in accordance with Section 3-3 of the Charter, the Appointment of Anne Stuart to the Cultural Council.

Motion: by Councilor Ringius to Approve Order 20 020

- **20 021 Braintree School Department: Authorization to execute Memorandum of Understanding with Massachusetts Executive Office of Health and Human Services or take up any action relative thereto**

Council President Hume asked for a recommendation from the Councilor Boericke, Chairwoman of the Committee of Ways & Means.

Councilor Boericke stated the committee met earlier this evening and Order 20 021 was discussed. This allows the Town to apply for a grant for federal reimbursement for some of the costs the schools incur by transporting children in foster care. The Committee unanimously voted for a favorable recommendation to the full Council.

Council President Hume asked if any member of the Council or General Public want to speak on Order 20 021?

Ed Cronin, stated this is a grant to help off-set the cost of transporting foster children. We will be refunded around 25% but unsure as to exact amount at this time.

Councilor Ringius stated when foster kids are taken out of their homes they can continue with the stability of the school system and it is great we will get some reimbursement for such an important program.

Council President asked if there is anyone else wishing to speak? Hearing none.

Councilor Ringius read the Motion:

MOTION:

To authorize the Superintendent of the Braintree Public School Department to enter into a Memorandum of Understanding (MOU) with the Executive Office of Health and Human Services, the Department of Elementary and Secondary Education, and the Department of Children and Families, in order to obtain Federal Title IV-E reimbursements for costs incurred by the Braintree Public School Department for foster care transportation, and to provide that payments for such foster care transportation costs may be made from the reimbursements that are received under the MOU, without appropriation of said reimbursements, pursuant to M.G.L. Chapter 44, Section 70.

ORDER NO: 074 14 - Renumbered 15 033 DATE FILED: OCTOBER 21, 2014
REQUEST OF: COUNCILOR RYAN

Councilor Ryan has submitted to the Braintree Town Council for consideration an amendment to General Ordinances, Chapter 12.08 – Excavation and Obstructions:

To see if the Town will vote to amend its General Ordinances, Chapter 12.08 - Excavation and Obstructions, by amending Section 12.08.010, Permit, for the purpose of adding a new paragraph D and paragraph E as printed in the attachment hereto.

Make the following change to the Town Ordinances, Section 12.08.010, ADD subsections D. and E., as follows:

12.08.010

D. Except as noted in Section E. below, no permit shall be granted within the moratorium period specified below for any non-emergency¹ excavation within the improved area.

Improvement	Description	longitudinal Trench	Transverse Trench (or transverse plus longitudinal totalling less than 150 feet.)
Reconstruction	New pavement over repaired or replaced granular base ²	10 years	5 years
Mill & Overlay	New pavement over milled existing pavement	10 years	5 years
Overlay	1-inch plus full lane width overlay of existing pavement ²	10 years	5 years
Shim with Microsurface, Chip Seal, Cape Seal, etc.	less than 1-inch full width surface treatment over paved shim along middle area of road	10 years	5 years
Microsurface, Chip Seal, Cape Seal, etc.	Less than 1-inch full width surface treatment over existing pavement	10 years	3 year
Other treatments	Not known at this time	TBD ³	TBD ³

E. The Town Council may grant a petition of National Grid or other gas company for a permit to excavate in an improved area under the moratorium and may require such mitigation and repairs as it sees fit, and it may require that surety be posted to secure the completion of the required mitigation and repairs.

The Mayor may grant a petition of others for a permit to excavate in an improved area under the moratorium for public safety related concerns, and may require such mitigation and repairs as he sees fit, and he may require that surety be posted to secure the completion of the required mitigation and repairs.

The minimum mitigation and surface repair requirement that should be expected for longitudinal excavation in an improved area in the first seven years of the moratorium is for full width curb to curb milling and re-paving for the full length of the excavation along the road plus another 25 feet at each end.⁴

The minimum mitigation and surface repair requirement that should be expected for a.) all transverse excavation or for b.) longitudinal excavation in the last three years of the moratorium is crown to curb milling and re-paving the extent of the excavation plus another 5 foot length each edge in the direction of traffic.⁴

All pavement markings shall be replaced in-kind. Curbs and sidewalks must be repaired or replaced, each to the satisfaction of the Highway Superintendent. Infrared treatment of seams may be required at the discretion of the Highway Superintendent.

¹ Emergency excavations for National Grid or other gas company shall consist of excavation to fix a "Grade 1" leak. For all others an emergency shall be as defined in Massachusetts' "DIG SAFE" law, MGL C.82 S 40 and 40A through 40E.

² Includes Improved sidewalks

³ To be determined by the Town Council as cases arise.

⁴ Length and/or width of repair may be varied at intersections and in other special circumstances.

Memo

Date: February 11, 2020
To: Susan M. Cimino, Clerk of the Council
From: Bob Campbell
CC: John Morse, Jim Arsenault, Darron MacDonald
RE: Comcast Petition, 262 Forbes Rd, 20-018

The DPW has reviewed the plans for the subject petition for the new communications cable location and have the following recommendations:

20-018 – Forbes Road to service 262 Forbes Road, install and maintain approximately 482 feet of communications cable in 1 - 4” PVC concrete encased conduit 24 inches deep, from an existing vault across from #222 Forbes Road to a new 3’ X 3’ manhole at the driveway into 262 Forbes Road.

This section of Forbes Road is not under the moratorium. The DPW recommends that the permit be granted with the normal conditions imposed by the DPW Highway Division plus that:

1. Forbes Road was not built under the Town’s supervision and so the presence and locations of drainage pipes and other utilities are not definitively known. Visible evidence reveals the presence of water lines a drainage system within the scope of this proposed work. Care must be taken to support and not damage existing utilities, and a plan of the details of the conduit system installed as-built shall be submitted to the DPW Engineering Division and shall include sizes, materials and locations of all utilities encountered during the construction.
2. If sidewalk surfaces are disturbed the surface is to be replaced in kind, at ADA compliant slopes and for the full width of the sidewalk and including fully ADA compliant curb ramps where required;
3. The Traffic Management Plan sheets shall reference the 2009 MUTCD rather than the 2003 edition noted. Also, the advance warning signs on the northeast-bound approach must be extended further southwest due to the serious sight line constraint posed by the vertical curve in the roadway.
4. The required trench repair is to have the trench width temporary paved with two 3” courses of binder, and then for the permanent repair, mill off the first 1-1/2 inches

depth of the trench width plus one foot on each side, then clean, tack and repave the trench with 1-1/2 inches of top.

5. The drawing refers to plates. If they are to be used (as for in curing the concrete encasement) it should be for not more than one overnight, with asphalt ramps at all edges in the traffic area and signs warning of their presence.
6. All matches with existing surfaces be smooth, safe, properly surfaced and satisfactory to the Town;
7. The conduit shall be installed outside of the trenches of the water, sewer and drain lines and other utilities in service and that the trench pavement not be left low for any length of time;
8. The DPW shall be notified when the construction conflicts with Town utilities so the resolution can be mutually agreeable;
9. The construction portion of the permit period shall not exceed two months from the start of construction and the entire permit period shall be set at one year beginning at the date of Council approval.

We also recommend that the following requirement be added to the permit, if it is to be granted:

“Neither Comcast nor any of its contractors is authorized to close any street or to close a direction of travel to facilitate their work without authorization from the Director of the Department of Public Works or the Highway Superintendent. The Chief of Police can also authorize a closure for a police or fire emergency. Construction zone traffic safety issues are to be addressed by using appropriate traffic control signs and devices and the use of police officers for traffic control to safely guide traffic through the work zone. If a closure is authorized by the DPW, it shall not be implemented until signs and police officers (where needed) are properly in place in conformity with the written plan prepared by the contractor’s engineer and approved by the DPW and Police Department.”

ORDER FOR CONDUIT LOCATION

In the Town Council for the Town of Braintree, Massachusetts.

ORDERED:

That permission be and hereby is granted to Comcast of Massachusetts III Inc., to lay and maintain underground conduits and manholes, with the wires and cables to be placed therein, under the surface of the following public way or ways as requested in petition of said Company dated January 21, 2020

Forbes Road: Starting at the existing manhole on Forbes Road located across from 222 Forbes Road. Excavating in a Southwesterly direction to place (1) 4" PVC Conduit 482'+/- to a proposed 3'x3' manhole. From the manhole the excavation continues on to private property to provide service to number 262 Forbes Road.

Substantially as shown on plan, filed with said petition.

Also that permission be and hereby is granted said Comcast to lay and maintain underground conduits, manholes, cables and wires in the above or intersecting public ways for the purpose of making connections with such poles and buildings as it may desire for distributing purposes.

The foregoing permission is subject to the following conditions:

1. The conduits and manholes shall be of such materials and construction and all work done in such manner as to be satisfactory to the Town Council or to such officers as it may appoint to the supervision of the work.
2. Said Company shall indemnify and save the Town harmless against all damages, costs and expense whatsoever to which the Town may be subjected in consequence of the acts or neglect of said Company, its agents or servants, or in any manner arising from the rights and privileges granted it by the Town.
3. In addition said Company shall, before a public way is disturbed for the laying of its wire or conduits, execute its bond in a penal sum of One Hundred Thousand Dollars (\$100,000) (reference being had to the bond already on file with said Town) conditioned for the faithful performance of its duties under this permit.
4. Said Company shall comply with the requirements of existing by-laws and such as may hereafter be adopted governing the construction and maintenance of conduits and wires, so far as the same are not inconsistent with the laws of the Commonwealth.

I hereby certify that the foregoing order was adopted at a meeting of the Town Council for the Town of Braintree, Massachusetts, held on the _____ day of _____ 2020.

GENERAL NOTES

1. THE LOCATIONS OF EXISTING UNDERGROUND UTILITIES ARE SHOWN IN AN APPROXIMATE WAY ONLY AND HAVE NOT BEEN INDEPENDENTLY VERIFIED BY THE OWNER OR ITS REPRESENTATIVE. THE CONTRACTOR SHALL DETERMINE THE EXACT LOCATION OF ALL EXISTING UTILITIES BEFORE COMMENCING WORK, AND SHALL BE FULLY RESPONSIBLE FOR ANY AND ALL DAMAGES WHICH MIGHT BE OCCASIONED BY THE CONTRACTOR'S FAILURE TO EXACTLY LOCATE AND PRESERVE ANY AND ALL UNDERGROUND UTILITIES.
2. WHERE AN EXISTING UTILITY IS FOUND TO CONFLICT WITH THE PROPOSED WORK, THE LOCATION, ELEVATION AND SIZE OF THE UTILITY SHALL BE ACCURATELY DETERMINED WITHOUT DELAY BY THE CONTRACTOR, AND THE INFORMATION FURNISHED TO THE ENGINEER FOR RESOLUTION OF THE CONFLICT.
3. THE CONTRACTOR SHOULD MAINTAIN A SEPARATION OF 18 INCHES MIN. WHEN CROSSING EXISTING WATER FACILITIES.
4. THE CONTRACTOR SHALL MAKE ALL ARRANGEMENTS FOR THE ALTERATION AND ADJUSTMENT OF GAS, ELECTRIC, TELEPHONE AND ANY OTHER PRIVATE UTILITIES BY THE UTILITY COMPANY.
5. THE CONTRACTOR SHALL NOT DISTURB PUBLIC TREES AND SHRUBS.
6. AREAS OUTSIDE THE LIMITS OF PROPOSED WORK DISTURBED BY THE CONTRACTOR'S OPERATIONS SHALL BE RESTORED BY THE CONTRACTOR TO THEIR ORIGINAL CONDITION AT NO EXPENSE TO THE OWNER.
7. THE CONTRACTOR SHALL BE RESPONSIBLE FOR PLACING AND MAINTAINING TEMPORARY RESURFACING AND/OR PLATING FOR ALL EXCAVATIONS IN PAVED STREETS AND SIDEWALKS UNTIL PERMANENT RESURFACING IS COMPLETE.
8. JOINTS BETWEEN NEW BITUMINOUS CONCRETE ROADWAY PAVEMENT AND SAW CUT EXISTING PAVEMENT SHALL BE SEALED WITH BITUMEN AND BACK SANDED.
9. THE CONTRACTOR SHALL PROTECT AND SUPPORT ALL EXISTING UTILITY LINES THAT BECOME EXPOSED DUE TO EXCAVATION REQUIRED TO INSTALL THE PROPOSED CONDUIT.
10. THE CONTRACTOR SHALL REPLACE ALL DISTURBED TRAFFIC SIGNAL LOOP DETECTORS TO GOOD WORKING CONDITION AS REQUIRED BY THE LATEST STANDARDS OF THE MUNICIPAL TRAFFIC DEPARTMENT.
11. ALL EXISTING STATE, COUNTY, CITY, AND TOWN LOCATION LINES AND PRIVATE PROPERTY LINES HAVE BEEN ESTABLISHED FROM AVAILABLE INFORMATION AND THEIR EXACT LOCATION ARE NOT GUARANTEED.
12. THE CONTRACTOR SHALL REPLACE ALL PAVEMENT MARKINGS IN THEIR ENTIRETY THAT HAVE BEEN DAMAGED BY TRENCH EXCAVATION OR OPERATIONS OF THE CONTRACTOR WITH SIMILAR COLOR AND SIZE THERMOPLASTIC MARKINGS.

PHASE II

**Notes for Figure 6H-10—Typical Application 10
Lane Closure on a Two-Lane Road Using Flaggers**

Option:

- For low-volume situations with short work zones on straight roadways where the flagger is visible to road users approaching from both directions, a single flagger, positioned to be visible to road users approaching from both directions, may be used (see Chapter 6E).
- The ROAD WORK AHEAD and the END ROAD WORK signs may be omitted for short-duration operations.
- Flashing warning lights and/or flags may be used to call attention to the advance warning signs. A BE PREPARED TO STOP sign may be added to the sign series.

Guidance:

- The buffer space should be extended so that the two-way traffic taper is placed before a horizontal (or crest vertical) curve to provide adequate sight distance for the flagger and a queue of stopped vehicles.

Standard:

- At night, flagger stations shall be illuminated, except in emergencies.

Guidance:

- When used, the BE PREPARED TO STOP sign should be located between the Flagger sign and the ONE LANE ROAD sign.
- When a grade crossing exists within or upstream of the transition area and it is anticipated that queues resulting from the lane closure might extend through the grade crossing, the TTC zone should be extended so that the transition area precedes the grade crossing.
- When a grade crossing equipped with active warning devices exists within the activity area, provisions should be made for keeping flaggers informed as to the activation status of these warning devices.
- When a grade crossing exists within the activity area, drivers operating on the left-hand side of the normal center line should be provided with comparable warning devices as for drivers operating on the right-hand side of the normal center line.
- Early coordination with the railroad company or light rail transit agency should occur before work starts.

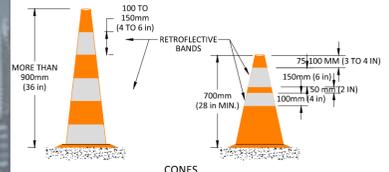

Option:

- A flagger or a uniformed law enforcement officer may be used at the grade crossing to minimize the probability that vehicles are stopped within 15 feet of the grade crossing, measured from both sides of the outside rails.

Memo

Date: March 11, 2020
To: Susan M. Cimino, Clerk of the Council
From: Bob Campbell
CC: Jim Arsenault, Ben Hulke
RE: Street Opening Petition, 20-023 Liberty St and Proctor Road

The DPW has reviewed the subject petition for the street opening location and has the following recommendations:

20-023 – Install and maintain approximately 3145 feet of 6 inch 60 psig plastic gas main in Liberty Street from the existing 6 inch 60 psig plastic service at 1024 Liberty Street to the existing 6 inch 60 psig main at Christina Drive and including a 4 inch 60 psig connection at Peach Street, a 3 inch 60 psig connection at Forest Street and a 2 inch 60 psig connection plus test station and anodes at Sycamore Road, and also to install and maintain 1420 feet of 2 inch 60 psig plastic gas main in Proctor Road, all to replace older mains and service the users along the route. Neither Liberty Street nor Proctor Road is under the moratorium, these sections of Liberty Street having been reconstructed in 2003 and 2005 and Proctor Road having been reconstructed in 2003, but both are in fairly good condition. Both of these sections are on the draft Roadway and Infrastructure Program for pavement preservation, Proctor Road in 2021 and Liberty Street in 2023. Since neither street is under the moratorium, I recommend that the petition be granted under the normal conditions with emphasis on the following:

- That the work be done expeditiously so not to interfere with the planned Town work;
- That the new mains not occupy any part of the trenches now occupied by the existing water or sewer mains;
- that the mains to be abandoned be removed;
- that after maintaining the 4" minimum* pavement depth temporary trenches from both the installations and the removals through one winter, but within one year of placement of the temporary trench repair, that the permanent repair be a grind and inlay with a minimum 1 foot overlap of the adjacent pavement 1 ½ inches deep of both trenches and of each service trench within the limits of the gas work;
- That any curbs or sidewalks or other features disturbed shall be repaired to the satisfaction of the DPW;
- "Neither National Grid nor any contractor is authorized to close any street or to close a direction of travel to facilitate their work without authorization from the Director of the Department of Public Works or the Highway Superintendent. The Chief of Police can also authorize a closure for a police or fire

emergency. Construction zone traffic safety issues are to be addressed by using appropriate traffic control signs and devices and the use of trained traffic control personnel to safely guide traffic through the work zone. If a closure is authorized by the DPW, it shall not be implemented until signs and traffic control officers (where needed) are properly in place in conformity with the written plan prepared by the contractor's engineer and approved by the DPW and the Police Department."

* 4" depth is to be constructed at all locations where the existing pavement depth is 4" or less. At all other locations the thickness of the pavement depth placed shall match the existing pavement thickness. Pavement shall be placed and compacted in courses not to exceed 2 ½ inches.

Memo

Date: March 9, 2020
To: Susan M. Cimino, Clerk of the Council
From: Bob Campbell
CC: Jim Arsenault, Ben Hulke
RE: Street Opening Petition, 20-024 Stonewood Lane and Birchcroft Road

The DPW has reviewed the subject petition for the street opening location and has the following recommendations:

20-024 – Install and maintain approximately 210 feet of 2 inch 60 psig plastic gas main in Birchcroft Road from the existing 2 inch plastic to the end of main at house #59, and to install and maintain approximately 540 feet of 2 inch 60 psig plastic gas main in Stonewood Lane from the new 2 inch in Birchcroft Road to the end of main at #11 to replace older mains and service the users along the route. Both Birchcroft Road and Stonewood Lane are under the moratorium enacted by the Town in 2015 having been shimmed and microsurfaced in 2017. For longitudinal trenches in a road resurfaced as these roads were the moratorium is 10 years. Road openings may be made after 2027 without waiving the ordinance. Since the street is under the moratorium, I recommend that the petition not be granted. However, if the Council finds extenuating circumstances and there is no viable option to safely maintain gas utility service, I would recommend that the petition for this road opening only be granted under the normal conditions, with emphasis on the new main not occupying any part of the trench now occupied by the existing water mains, and also on the following conditions:

- That the main and services be placed lower than normal in the Birchcroft / Stonewood intersection area and that the repair paving be deeper to accommodate a future lowering of the roadway (to offset the effects of a previous overlay by Algonquin which residents complain has caused short term puddles to form where their driveways and walkways meet the roadside.)
- That the existing mains being replaced be removed;
- that after maintaining the temporary trench through one winter but within one year of placement of the temporary trench repair, the permanent repair be full-width mill and overlay of both roadways within the limits of the gas work with deeper milling in the intersection area, depths to be determined by the DPW Engineering Division.

- That any curbs or sidewalks or other features disturbed shall be repaired to the satisfaction of the DPW;
- “Neither National Grid nor any contractor is authorized to close any street or to close a direction of travel to facilitate their work without authorization from the Director of the Department of Public Works or the Highway Superintendent. The Chief of Police can also authorize a closure for a police or fire emergency. Construction zone traffic safety issues are to be addressed by using appropriate traffic control signs and devices and the use of trained traffic control personnel to safely guide traffic through the work zone. If a closure is authorized by the DPW, it shall not be implemented until signs and traffic control officers (where needed) are properly in place in conformity with the written plan prepared by the contractor’s engineer and approved by the DPW and the Police Department.”

From: Bob Campbell

RE: Street Opening Petition, 20-025 Wynot Road

The DPW has reviewed the subject petition for the street opening location and has the following recommendations:

20-025 – Install and maintain approximately 570 feet of 2 inch 60 psig plastic gas main in Wynot Road from the existing 2 inch plastic to the end of main at house #49 to replace an older main and service the users along the route. Wynot Road is under the former moratorium having been shimmed and microsurfaced in 2015. For longitudinal trenches in a road resurfaced as this road was the moratorium is 5 years. Road openings may be made after 2020 without waiving the ordinance. Since the street is under the moratorium, I recommend that the petition not be granted. However, if the Council finds extenuating circumstances and there is no viable option to safely maintain gas utility service, I would recommend that the petition for this road opening only be granted under the normal conditions, with emphasis on:

- That the new main not occupy any part of the trench now occupied by the existing water or sewer mains;
- that the main to be abandoned be removed;
- that after maintaining the 4” minimum pavement depth temporary trenches from both the installation and the removal through one winter, but within one year of placement of the temporary trench repair, the permanent repair be a grind and inlay with a minimum 1 foot overlap of the adjacent pavement 1 ½ inches deep of both trenches and of each service trench within the limits of the gas work;
- That any curbs or sidewalks or other features disturbed shall be repaired to the satisfaction of the DPW;
- “Neither National Grid nor any contractor is authorized to close any street or to close a direction of travel to facilitate their work without authorization from the Director of the Department of Public Works or the Highway Superintendent. The Chief of Police can also authorize a closure for a police or fire emergency. Construction zone traffic safety issues are to be addressed by using appropriate traffic control signs and devices and the use of trained traffic control personnel to safely guide traffic through the work zone. If a closure is authorized by the DPW, it shall not be implemented until signs and traffic control officers (where needed) are properly in place in conformity with the written plan prepared by the contractor’s engineer and approved by the DPW and the Police Department.”

To: Susan M. Cimino, Clerk of the Council
From: Bob Campbell
CC: Jim Arsenault, Ben Hulke
RE: Street Opening Petition, 20-026 Elm St and Charles St

The DPW has reviewed the subject petition for the street opening location and has the following recommendations:

20-026 – Install and maintain approximately 1465 feet of 8 inch 60 psig plastic gas main in Elm Street from the existing 1 inch plastic service at Service Road to the existing 6 inch 60 psig main at Middle Street and including an 8 inch 60 psig connection at Church Street and 2 inch 60 psig connections at Vinton Ave, Elm Ter, Lowell St and Cedar St, and also to install and maintain 490 feet of 2 inch 60 psig plastic gas main in Charles Street, all to replace older mains and service the users along the route. Neither Elm Street nor Charles Street is under the moratorium, Elm Street having been reconstructed in 2000 and Charles Street having been reconstructed in 2013, but both are in good condition. Since neither street is under the moratorium, I recommend that the petition be granted under the normal conditions with emphasis on the following conditions:

- The plan incorrectly shows the existing roadway conditions at the Elm Street / Church Street / Elm Terrace intersection, ignoring the wall running through the intersection separating the collector and local traffic. The plan must be modified to show only one (perpendicular) crossing of the wall and detailing how it is to be accomplished to the satisfaction of the DPW;
- That the new mains not occupy any part of the trenches now occupied by the existing water or sewer mains;
- that the mains to be abandoned be removed;
- that after maintaining the 4" minimum* pavement depth temporary trenches from both the installations and the removals through one winter, but within one year of placement of the temporary trench repair, that the permanent repair be a grind and inlay with a minimum 1 foot overlap of the adjacent pavement 1 ½ inches deep of both trenches and of each service trench within the limits of the gas work;
- That any curbs or sidewalks or other features disturbed shall be repaired to the satisfaction of the DPW;
- "Neither National Grid nor any contractor is authorized to close any street or to close a direction of travel to facilitate their work without authorization from the Director of the Department of Public Works

or the Highway Superintendent. The Chief of Police can also authorize a closure for a police or fire emergency. Construction zone traffic safety issues are to be addressed by using appropriate traffic control signs and devices and the use of trained traffic control personnel to safely guide traffic through the work zone. If a closure is authorized by the DPW, it shall not be implemented until signs and traffic control officers (where needed) are properly in place in conformity with the written plan prepared by the contractor's engineer and approved by the DPW and the Police Department."

* 4" depth is to be constructed at all locations where the existing pavement depth is 4" or less. At all other locations the thickness of the pavement depth placed shall match the existing pavement thickness. Pavement shall be placed and compacted in courses not to exceed 2 ½ inches.

Dear Ms. Cimino,

National Grid: Petition # 20-026

Please note, BELD has a 115,000 volt oil filled transmission line located at the corner of Elm/Middle ST... BELD Engineering should be notified in advance of any excavation to be performed in close proximity to this line. BELD will provide onsite support and safety personnel at no cost to the project.

BELD also has a 13,800 volt underground system on Elm and Middle St. This is a concrete encased duct bank to be identified through the Dig safe process.

Please see attached drawing of the locations of services, let me know if you need any additional information.

Sincerely,

Re: FY 2020 Supplemental Appropriation

RECEIVED TOWN CLERK
BRAINTREE, MA
2020 FEB 20 PM 1:19

As I previously stated, a priority of my administration is to move forward with an updated master plan for the Town of Braintree. To move this promise forward I am presenting for your approval the funding required for this project in the amount of \$200,000.00.

To fund this request I propose transferring the unexpended sum of \$64,492.20 from the article balance CO 14 021(1) Updating Zoning Ordinance and the balance of \$135,507.80 is to come from a transfer from FY 2019 Certified Free Cash.

Accordingly, your review and approval of the following motion is requested:

Motion: That the amount of \$64,492.20 be transferred from the Planning and Community Development Department Updating Zoning Ordinance article and \$135,507.80 be transferred from FY 2019 Certified Free Cash for a total of \$200,000.00 to Planning and Community Development Department Master Plan article.

Since these requests involve the appropriation of funds within the fiscal year 2020 budget, advertising and a public hearing is required under the sections 2-9 and 6-7 of the Town Charter.

Finance Questions

Q. How was the \$200,000 figure arrived at as an estimate for the amount needed to conduct a master plan for Braintree?

A. The estimated cost to create the Master Plan is based on information gathered by the Planning and Community Development Department from past plans and work completed in other communities. The last Master Plan, completed in April 1998, was an update of prior Master Plans. Previously developed Master Plans provide a historical background through the data collected and community trends noted in the various sections. New data gathered as part of this process will supplement the historical information contained in prior versions. The same is true for the reports and studies completed under the direction of the Planning and Community Development Department, which will be used by the consultant in order to create the final product.

Q. What is the intended use for the \$200,000?

A. This is the projected cost for the entire Master Plan to be completed by an outside professional land use consultant. The Master Plan will include the elements required by M.G.L. c. 41 s. 81D

(<https://malegislature.gov/Laws/GeneralLaws/PartI/TitleVII/Chapter41/Section81D>).

Q. What is the average cost to develop a Master Plan and can you please confirm if a competitive bidding process is required?

A. There is no “average cost” to complete a Master Plan because the cost is determined based on the Scope of Work, which is developed by the Town and included in the RFP. Examples of money appropriated by other communities for completion of a Master Plan include \$145,000 (Hingham 2019); \$150,000 (Medfield 2019); and \$100,000 (Scituate 2020). Our projected cost of \$200,000.00 took into consideration the existing studies, reports and data collection available to the consultant, along with a variety of supplemental material already in the possession of the Planning and Community Development Department.

The Uniform Procurement Act (aka M.G.L. c. 30B) requires that any service that results in the production of a report that will have an estimated value of \$50,000 or greater must be solicited through a Request for Proposals (RFP). Proposals are rated using established criteria and the project is awarded to the most responsive and responsible bidder. The award does not automatically go to the low bidder (as is the case with an Invitation for Bids) and both price and non-price factors are considered in the evaluation, allowing the Town to have greater flexibility in awarding the contract.

Q. Have you identified other necessary resources like staff and volunteers? Will these resources require additional funding?

A. Typically, Master Plan facilitation and development are done by a professional land use consultant (who will be selected through the RFP process described above). Volunteers may be used during the visioning and charrette events to help facilitate public comment for consideration during the process. This will be voluntary and will not incur additional costs. A professional consultant has the necessary professional education, experience and skills to produce a Master Plan and meet the statutory requirements detailed in M.G.L. c. 41 s. 81D. The visioning element, which includes public information gathering, establishes for the consultant the community's supported vision, statement, goals and objectives of the Master Plan. A representative from the Planning and Community Development Department will provide project management and contract administration and staff will be available to offer assistance throughout the process. This will be done during work hours as time permits and will not incur additional costs.

Q. Have you determined how this money will be utilized to accomplish all the steps in the Master Planning process or is this only intended for discrete components?

A. The \$200,000.00 is intended to cover the complete Master Plan process, including development of all necessary components and final product. The Town will undertake a two-phased approach: Phase I will be the visioning element. As detailed above, this phase sets forth the community's vision, goals and objectives for the Master Plan through a public participation program established, implemented and documented by the consultant. Phase II will then address each of the statutory elements of the Master Plan. A separate RFP will be published for Phase II with a scope of work that typically identifies each element, purpose, schedule and deliverables, plus additional specific requirements of the statute for a Master Plan.

Q. Can we re-purpose/dust off some of the work that has already been done (Ivory Street Corridor and the Climate Vulnerability Action Plan, for example)? If so, will this reduce our costs?

A. Yes. The cost estimate took into account existing work that can be incorporated into the final product.

Master Plan Components

Q. Has there been any consideration to adding categories on Energy & Sustainability or Public Health and Livability? Is there money included in the cost estimate to cover any categories not required by the statute?

A. At this time the only components of the Master Plan will be those required by the statute. If the determination is made to add additional components, such as those referenced above, additional funding will be required.

Q. I believe the below elements are required by statute. I found #6 on the Town's Website, but if Director Stickney or the Mayor's office can please provide the documents or website links to

the other elements that are already in place that would be helpful. If we are approving \$200,000 assuming much of the required work has already been done, I'd like to review that work before our next meeting. Also, what is the contingency plan if, after the Visioning session, the work we already have no longer aligns with the community's vision?

1. Goals and policy statement
2. Land Use
3. Housing
4. Economic Development
5. Natural and Cultural Resources
6. Open Space and Recreation (I found avail. on the Town's website)
7. Services and Facilities
8. Circulation (Is this the Complete Streets Plan which is referenced on page 16 of the Open Space and Rec Plan?)
9. Implementation

A. There are a number of our reports upload under various areas of our web pages – under “Items of Interest” many will be found – Under the floodplain there is information and the prior master plan is under the Planning Board which is good to see as to the outline and information that goes into the master plan. You will not find a report anywhere with exception of open space that says for example “economic development” – a variety of our work products contribute into the areas outlined. Some of work products are in hard copies and have not been uploaded – items we did with MAPC around transportation for example – In my office I have a box of different reports and materials I plan to inventory for Phase II as supplemental materials the list will go out with the solicitation.

Q. What is the intended scope of work?

A. As noted above, the elements of a Master Plan are governed by M.G.L. c. 41 and include visioning and an action and implementation plan. Other required categories are Land Use, Housing, Economic Development, Natural and Cultural Resources, Open Space and Recreation, Services and Facilities and Circulation. The Town has the option of adding additional categories based on need—this can be guided by the information gathered during the visioning based on the public participation.

Q. What is the plan to hold ourselves accountable for implementation? We have spent a lot of money over the years without implementation plans. Are the cost of implementation tools being considered in the scope of this request?

A. The Master Plan will include an implementation and action plan (as was the case with the 1998 Master Plan). The prior Master Plan identified the appropriate boards, commissions, department and other entities that were tasked with fulfilling the objectives of the Plan. Several of the initiatives were fulfilled by zoning proposals, action plans and Town meeting articles; however, they did not all receive favorable action by the decision making authority.

This is not uncommon as support for an initiative may change during the process and prior to implementation. As the Chief Executive, the Mayor has ultimate responsibility to ensure implementation once the process is complete.

Q. Have you established timelines?

A. The RFP will include a schedule for completion. For example, the visioning should be completed within 6 months, with a onetime 6 month extension by agreement of both parties.

Q. If we are approving \$200,000 assuming much of the required work has already been done, I'd like to review that work before our next meeting. Also, what is the contingency plan if, after the Visioning session, the work we already have no longer aligns with the community's vision?

A. As noted above, Phase I is the visioning. During this phase, the consultant will assist participating members of the public with parameters—for example, ensuring that the vision is not contrary to any laws or regulations—and establishing the community's vision, goals and objectives. Some of the information included in this phase of the process is demographic research, which is gathered from various state and federal sources (for example census data) and traffic data from various intersections. Once the vision is established, a second RFP will be published for an expert to pull all of the components together, keeping in mind the vision and identified Town needs while addressing all statutory components. If additional data is required to complete the remaining sections, and conform to the vision gathered in Phase I, additional factual data will be gathered. A description of the existing reports, studies and data collection is provided above and is available for review on line or in paper form.

Visioning

Q. I imagine that there will be a steering committee of sorts to guide the visioning process that will be the first step in developing a new master plan. It is essential for this group to be well-rounded in terms of experience and points of view. What mechanism is planned to ensure equitable representation for all the major stakeholders in Braintree to be included in this core group?

A. There will be a committee established by the Mayor's Office that will be representative of all interests, including representatives from the Town Council, residents and large and small businesses, to ensure a comprehensive final product that serves all of the Town's interests.

Q. Can Director Stickney or the Mayor's Office provide additional context on

- How the Visioning process and public participation plan (mentioned below) work. As the RFP is being designed, what are our expectations for ensuring active inclusion of key community stakeholders?

A. Phase I is the visioning a/k/a Community Vision. During this phase, the consultant will assist participating members of the public with parameters—for example, ensuring that

the vision is not contrary to any laws or regulations. Members of the public will be notified of opportunities to participate through various forums. These may include the Town's website, social media and reverse 911 calls. Participation in other components will include a representative group of the community as set forth in the RFP.

- Has the RFP been drafted and if so, is the Council privy to that?

A. It has not been the Town's practice to share an RFP in draft form. A copy can be provided to the Council upon completion.

Q. What I would like to see is a high level outline of what they called the Vision portion of the Master Plan. It would not have to be more than a couple pages. Addressing items (which Director Stickney did touch on when asked) as to how residents will be involved, contacted, heard, what will be done with their input, business involvement, etc. Given the importance of resident engagement, I would like to see the plans for it documented from the outset.

A. See the attached for a draft summary description of the scope of work for Phase I of the Master Plan. The final RFP will be approved by the Mayor prior to publication. Once the contract is awarded, the consultant engages with all parties of interest to establish the overall vision for the Town. This vision is what guides Phase II of the process and is used to address each element of the Master Plan based on the public feedback. That is then used to establish action and implementation plans.

Public Participation

Q. How are we going to reduce barriers to participation and make it possible for a diverse, representative group of community members to participate in the process? Do we have a plan to incorporate technology to help expand outreach and input? Are technology costs being considered in the scope of this request?

A. The most important component of the Master Plan process is the Visioning Component as it determines the direction and outline of the Master Plan. This will include significant public participation with the information gathered by the consultant establishing the framework for the other categories. Members of the public will be notified of opportunities to participate through various forums. This may include the Town's website, social media and reverse 911 calls.

Project Objectives:

1. To implement a public outreach program that engages public input from the general public including but not limited to residents, representatives of the business community, non-profit institutions and other stakeholders identified throughout the Town.
2. Public engagement will target quality of life desired in Braintree as it relates to aesthetics, environment, town services, recreation, education, diversity, Age-friendly community, cultural & historical resources, vibrant downtowns, economic development and other attributes to understand the desire of said stakeholders as to the community.
3. To gather public input, compile statements and thoughts for developing the Community Vision and Community Character plan for the initial visioning guidance of a future Master Plan.
4. Once a contract has been awarded, completion of the Community Vision and Community Character Plan will be delivered in six (6) months to Mayor Charles C. Kokoros.

Scope of Services:

The consultant shall develop and coordinate a public participation plan to establish a series of charrettes/discussions/forums for public engagement as to what the Town's vision and goals should be for the Master Plan. This is a critical preliminary element to be accomplished in order to develop and have consensus be clear and early in the process of the development of Master Plan elements.

1. The Consultant shall provide a written Public Participation Program (PPB) for review and approval by the Mayor, Chief of Staff and Project Manager that details the strategy and a timeline for engaging the public and all potential stakeholders in the Community Vision and Community Character Plan.
2. The Public Participation Plan shall first outline a strategy and recommended series of meetings and/or charrettes for identified stakeholders to obtain public input as to the vision and goals for the elements to be developed for a Master Plan.
3. The Consultant is responsible for development of any press releases that will be presented to the Mayor, Chief of Staff and Project Manager for the initial kick-off of the program and intermittent press releases during the entire process as approved by the Mayor.
4. The Consultant shall develop a list of suggested stakeholders based upon their past community experiences. The Mayor, Project Manager and Consultant will work cooperatively to supplement from the initial list of stakeholders with other stakeholders unique to Braintree.
5. A web page shall be developed and maintained by the consultant as an extension of the Planning & Community Development Department existing web page that provides the general public with a transparent process, access to materials with the final objective of public input and comment.
6. Social Media options for outreach to numerous stakeholders for participation is encouraged but should not be considered the only venue relied upon for public outreach; the consultant will provide different alternatives for reaching Braintree's diverse ethnic and age population.

7. The Consultant shall work with the Project Manager to arrange and facilitate meetings both at Town Hall and within the Community. The Consultant is responsible for providing meeting minutes, reviewed by the project manager and then posted on the developed website.
