OFFICE OF THE TOWN COUNCIL

Tuesday, April 28, 2020

(zoom webinar)

MINUTES

A meeting of the Town Council was held via Zoom Webinar, on Tuesday, April 28, 2020 beginning at 7:30p.m.

Council President Hume was in the chair.

Clerk of the Council, Susan M. Cimino conducted the roll call.

The meeting began with a moment of silence.

Present: Shannon Hume, President
David M. Ringius, Jr., Vice-President
Charles Ryan
Julia Camille Flaherty
Steven A. Sciascia
Donna L. Connors
Stephen C. O'Brien
Meredith L. Boericke
Lawrence C. Mackin, Jr.

Others: Charles C. Kokoros, Mayor
Nicole Taub, Chief of Staff/Town Solicitor
Ed Spellman, Director of Finance
Dr. Frank Hackett, Superintendent of Schools
Marybeth McGrath, Director of the Department of Municipal Licenses & Inspections
James Arsenault, DPW Director
John Keenan, Senator
Walter Timilty, Senator
Mark Cusack, State Representative
Shawn McGoldrick, Town Auditor
Dan Sullivan, Town Auditor
Steve Leary, Assistant to the Mayor
Kate Naughton, Services Coordinator
Mary Mulroney, National Grid Representative
Tim Corthell, Comcast Representative
Jill Coyle, resident
Robert Kearns, resident

ANNOUNCEMENTS

- **018 20 Council President:** Recognition Certificate – 100th Birthday, Joseph Shiner
Mr. Joseph Shiner is being recognized by the Braintree Town Council for his 100th birthday as well as being a World War II Veteran. Town Council thanks him for his service. A framed recognition certificate was delivered for him due to this COVID-19 and having to keep social distance.

APPROVAL OF MINUTES

- February 4, 2020

Motion made by Councilor Ringius to Approve Minutes of February 4, 2020

Motion: by Councilor Ringius to Approve Minutes of February 4, 2020

COMMUNICATIONS AND REPORTS FROM THE MAYOR AND TOWN BOARDS

- **012 20 Council President: COVID-19 Update**

Mayor Kokoros stated at this date we have 586 confirmed cases of COVID-19. Total of 65 lives lost due to the Coronavirus. We have day to day meetings we have Nicole Taub, Chief O’Brien, Chief DuBois, Marybeth McGrath, Jean McGinty and Mary Mulready. We meet every day and discuss different issues. Masks are required to be worn into businesses. About 65% of our cases are in Nursing Homes. We have limited the number of people going into stores at this time with masks on. Marybeth McGrath, Director of the Department of Municipal Licenses & Inspections stated we are out there enforcing and assisting anyway we can. The entire team is working very hard to get this done.

We also encourage the residents to take steps to help prevent exposure to any respiratory viruses, including seasonal influenza and Coronavirus by:

- Washing your hands often with soap and warm water for at least 20 seconds.
- Avoid touching your eyes and face.
- Cover coughs and sneezes with a tissue or the inside of your elbow.
- Clean things that are frequently touched (like doorknobs and countertops) with household cleaning sprays or wipes.
- Stay at home when feeling sick.

For more information on COVID-19, visit the MDPH website at www.mass.gov/2019coronavirus and the CDC website at <https://www.cdc.gov/coronavirus/index.html>

For questions, please feel free to contact the Town of Braintree Health Department:
Jean McGinty, Public Health Nurse at 781-794-8094 or Marybeth McGrath, Director of Health at 781-794-8095.

Kate Naughton gave an update on the Community Task Force Facebook page: braintree community response and assistance. 781-817-3937. Call for any type of assistance needed. Leave a message and phone number for this team to call you back. We are continuing food drives every Saturday 10am-noon.

John Keenan, Senator stated the fact that all schools have been closed for the school year. Day care has been closed through the end of June 2020. Unemployment is the questions the office gets the calls about most often. There has been about 650,000 claims in the Commonwealth for benefits. There are about 20,000 calls per day coming into the call center per day even with 1,000 additional employees in these call centers. The calls come back to you from a (617) area code. You should pick up that call. It is noted you can now file your taxes in July instead of April for this year. Tragically we have over 3,000 deaths in the Commonwealth.

Mark Cusack, State Representative stated a few items have been sent for legislation on halting all foreclosures and evictions and electronically notarization bill. How we can meet in the House for a former session via remote meetings. We do have \$3.5 billion in our "rainy day" fund. Unrestricted local fund is funded by the lottery but has taken a hit this year. We will work with you and help assist with the financial impact.

- **019 20 Mayor: FY2021 Budget Submission**

Thank you for the opportunity to present my first Town Budget for Fiscal Year 2021. The government gave cities and towns the option to postpone the FY2021 Budget. As part of my commitment to transparency and keeping our government operating, I feel it is right to present this budget in a timely manner. It is my responsibility to provide the Town Council with a balanced budget for FY2021. The FY2021 Budget of \$143,370,197. This is a 2.84% increase overall from the FY2020 Budget. In creating this budget we took into account the fiscal uncertainty. We have reduced many revenue projections in this budget. Our department heads have all found ways to reduce their FY2021 budgets. I am confident in the budget submitted to you tonight. We will continue to fully support our Schools and initiatives to have the 5th graders move to our middle schools and staffing needs to support this change. We continue to support important missions of our Braintree Community Partnership on Substance Use and the Commission on Disabilities. Our Police and Fire Departments will continue to provide important public safety support to our residents. Both departments have received additional funding to help cover overtime costs and with continued management and oversight by our public safety leaders we will move to reduce and eventually eliminate a supplemental request to cover these costs. The department of Elder Affairs will continue to support our senior population. Our Library continues to enhance its services even during this pandemic. We have a very strong Public Works department that will continue to provide all the necessary services to the public. We have added a line item to help fund updates for our parks and fields. Our facilities team will continue to upgrade and maintain our buildings throughout town. This budget represents the fiscal strength of our town and I ask you to approve the Fiscal Year 2021 Operating Budget as submitted. It shows our ability to make adjustments for the greater good of our town, its employees and most importantly you, our residents. We are a community of strength, resilience and compassion. This is shown by the generosity of so many during one of our darkest hours. As your Mayor I am truly thankful for the ability to lead such a wonderful community. I know we will continue to build a better Braintree together.

OLD BUSINESS

• 20 018 Comcast Petition: 262 Forbes Road or take up any action relative thereto

Council President Hume referred to Councilor Ryan for a recommendation on Order 20 018.

Councilor Ryan, Chairman of the Committee on the Department of Public Works stated the committee met and unanimously recommends favorable action to the full Council.

Councilor Ringius read the following MOTION:

To service 262 Forbes Road, install and maintain approximately 482 feet of communications cable in 1 - 4" PVC concrete encased conduit 24 inches deep, from an existing vault across from #222 Forbes Road to a new 3' X 3' manhole at the driveway into 262 Forbes Road with staff recommendations:

BELD: Please see attached underground utilities map, contractor to follow Dig safe procedures. Comcast to notify BELD of any utility conflicts or scope of work changes.

DPW: This section of Forbes Road is not under the moratorium. The DPW recommends that the permit be granted with the normal conditions imposed by the DPW Highway Division plus that:

1. Forbes Road was not built under the Town's supervision and so the presence and locations of drainage pipes and other utilities are not definitively known. Visible evidence reveals the presence of water lines a drainage system within the scope of this proposed work. Care must be taken to support and not damage existing utilities, and a plan of the details of the conduit system installed as-built shall be submitted to the DPW Engineering Division and shall include sizes, materials and locations of all utilities encountered during the construction.
2. If sidewalk surfaces are disturbed the surface is to be replaced in kind, at ADA compliant slopes and for the full width of the sidewalk and including fully ADA compliant curb ramps where required;
3. The Traffic Management Plan sheets shall reference the 2009 MUTCD rather than the 2003 edition noted. Also, the advance warning signs on the northeast-bound approach must be extended further southwest due to the serious sight line constraint posed by the vertical curve in the roadway.
4. The required trench repair is to have the trench width temporary paved with two 3" courses of binder, and then for the permanent repair, mill off the first 1-1/2 inches depth of the trench width plus one foot on each side, then clean, tack and repave the trench with 1-1/2 inches of top.
5. The drawing refers to plates. If they are to be used (as for in curing the concrete encasement) it should be for not more than one overnight, with asphalt ramps at all edges in the traffic area and signs warning of their presence.
6. All matches with existing surfaces be smooth, safe, properly surfaced and satisfactory to the Town;
7. The conduit shall be installed outside of the trenches of the water, sewer and drain lines and other utilities in service and that the trench pavement not be left low for any length of time;
8. The DPW shall be notified when the construction conflicts with Town utilities so the resolution can be mutually agreeable;
9. The construction portion of the permit period shall not exceed two months from the start of construction and the entire permit period shall be set at one year beginning at the date of Council approval.

We also recommend that the following requirement be added to the permit, if it is to be granted:

“Neither Comcast nor any of its contractors is authorized to close any street or to close a direction of travel to facilitate their work without authorization from the Director of the Department of Public Works or the Highway Superintendent. The Chief of Police can also authorize a closure for a police or fire emergency. Construction zone traffic safety issues are to be addressed by using appropriate traffic control signs and devices and the use of police officers for traffic control to safely guide traffic through the work zone. If a closure is authorized by the DPW, it shall not be implemented until signs and police officers (where needed) are properly in place in conformity with the written plan prepared by the contractor’s engineer and approved by the DPW and Police Department.”

Motion: by Councilor Ringius to approve Order 20 018

Second: by Councilor Ryan

Roll Call Vote: For (9 – Boericke, Connors, Flaherty, Hume, Mackin, O’Brien, Ringius, Ryan, Sciascia),
Against (0), Absent (0), Abstain (0)

• **20 023 National Grid Petition: Liberty Street or take up any action relative thereto**

Council President Hume referred to Councilor Ryan for a recommendation on Order 20 023.

Councilor Ryan, Chairman of the Committee on the Department of Public Works stated the committee met and unanimously recommends favorable action to the full Council for this petition. This street is not under moratorium. This street is going to be done over so we want National Grid to get their work done ahead of time.

Councilor Ringius read the following MOTION:

To install and maintain approximately 3145 feet of 6 inch 60 psig plastic gas main in Liberty Street from the existing 6 inch 60 psig plastic service at 1024 Liberty Street to the existing 6 inch 60 psig main at Christina Drive and including a 4 inch 60 psig connection at Peach Street, a 3 inch 60 psig connection at Forest Street and a 2 inch 60 psig connection plus test station and anodes at Sycamore Road, and also to install and maintain 1420 feet of 2 inch 60 psig plastic gas main in Proctor Road, all to replace older mains and service the users along the route with staff recommendations:

BELD: There are no underground electric utility conflicts or special requirements within the proposed scope of work.

DPW: Neither Liberty Street nor Proctor Road is under the moratorium, these sections of Liberty Street having been reconstructed in 2003 and 2005 and Proctor Road having been reconstructed in 2003, but both are in fairly good condition. Both of these sections are on the draft Roadway and Infrastructure Program for pavement preservation, Proctor Road in 2021 and Liberty Street in 2023. Since neither street is under the moratorium, I recommend that the petition be granted under the normal conditions with emphasis on the following:

1. That the work be done expeditiously so not to interfere with the planned Town work;
2. That the new mains not occupy any part of the trenches now occupied by the existing water or sewer mains;
3. that after maintaining the 4" minimum* pavement depth temporary trenches from both the installations and the removals through one winter, but within one year of placement of the temporary trench repair, that the permanent repair be a grind and inlay with a minimum 1 foot overlap of the adjacent pavement 1 ½ inches deep of both trenches and of each service trench within the limits of the gas work;
4. That any curbs or sidewalks or other features disturbed shall be repaired to the satisfaction of the DPW;

“Neither National Grid nor any contractor is authorized to close any street or to close a direction of travel to facilitate their work without authorization from the Director of the Department of Public Works or the Highway Superintendent. The Chief of Police can also authorize a closure for a police or fire emergency. Construction zone traffic safety issues are to be addressed by using appropriate traffic control signs and devices and the use of trained traffic control personnel to safely guide traffic through the work zone. If a closure is authorized by the DPW, it shall not be implemented until signs and traffic control officers (where needed) are properly in place in conformity with the written plan prepared by the contractor’s engineer and approved by the DPW and the Police Department.”

* 4" depth is to be constructed at all locations where the existing pavement depth is 4" or less. At all other locations the thickness of the pavement depth placed shall match the existing pavement thickness. Pavement shall be placed and compacted in courses not to exceed 2 ½ inches.

Councilor Boericke asked that residents in these areas be notified ahead of time that this work is to be done so residents do not get blind-sided.

Jim Arsenault, DPW Director stated National Grid does notify residents when there is work to begin in the area.

Mary Mulrone, National Grid stated your concerns will be taken back to National Grid management. Councilor Flaherty stated there is a lot of pedestrian traffic in this area. It would be better to have the work done while school is not in session.

Council President Hume stated in the past if work is being done near schools work is halted during the hours pedestrians need to get by the project area.

Motion: by Councilor Ringius to approve Order 20 023

Second: by Councilor Ryan

Roll Call Vote: For (9 – Boericke, Connors, Flaherty, Hume, Mackin, O’Brien, Ringius, Ryan, Sciascia), Against (0), Absent (0), Abstain (0)

- **20 024 National Grid Petition: Stonewood Lane or take up any action relative thereto (WITHDRAWN)**

Council President Hume referred to Councilor Ryan for a recommendation on Order 20 024.

Councilor Ryan, Chairman of the Committee on the Department of Public Works stated the committee me and Order 20 024 has been withdrawn. This street is under moratorium so National Grid withdrew its petition.

Council President Hume stated Order 20 024 has been WITHDRAWN. No further action is required.

- **20 025 National Grid Petition: Wynot Road or take up any action relative thereto (WITHDRAWN)**

Council President Hume referred to Councilor Ryan for a recommendation on Order 20 025.

Councilor Ryan, Chairman of the Committee on the Department of Public Works stated the committee me and Order 20 025 has been withdrawn. This street is under moratorium so National Grid withdrew its petition.

Council President Hume stated Order 20 025 has been WITHDRAWN. No further action is required.

- **20 026 National Grid Petition: Elm Street or take up any action relative thereto**

Council President Hume referred to Councilor Ryan for a recommendation on Order 20 026.

Councilor Ryan, Chairman of the Committee on the Department of Public Works stated the committee me and unanimously recommends favorable action to the full Council.

Councilor Ringius read the following MOTION:

To install and maintain approximately 1465 feet of 8 inch 60 psig plastic gas main in Elm Street from the existing 1 inch plastic service at Service Road to the existing 6 inch 60 psig main at Middle Street and including an 8 inch 60 psig connection at Church Street and 2 inch 60 psig connections at Vinton Ave, Elm Ter, Lowell St and Cedar St, and also to install and maintain 490 feet of 2 inch 60 psig plastic gas main in Charles Street, all to replace older mains and service the users along the route with staff recommendations.

BELD: Please note, BELD has a 115,000 volt oil filled transmission line located at the corner of Elm/Middle Street. BELD Engineering should be notified in advance of any excavation to be performed in close proximity to this line. BELD will provide onsite support and safety personnel at no cost to the project. BELD also has a 13,800 volt underground system on Elm and Middle St. This is a concrete encased duct bank to be identified through the Dig safe process. Please see attached drawing of the locations of services.

DPW: Neither Elm Street nor Charles Street is under the moratorium, Elm Street having been reconstructed in 2000 and Charles Street having been reconstructed in 2013, but both are in good condition. Since neither street is under the moratorium, I recommend that the petition be granted under the normal conditions with emphasis on the following conditions:

1. The plan incorrectly shows the existing roadway conditions at the Elm Street / Church Street / Elm Terrace intersection, ignoring the wall running through the intersection separating the collector and local traffic. The plan must be modified to show only one (perpendicular) crossing of the wall and detailing how it is to be accomplished to the satisfaction of the DPW;
2. That the new mains not occupy any part of the trenches now occupied by the existing water or sewer mains;
3. that after maintaining the 4" minimum* pavement depth temporary trenches from both the installations and the removals through one winter, but within one year of placement of the temporary trench repair, that the permanent repair be a grind and inlay with a minimum 1 foot overlap of the adjacent pavement 1 ½ inches deep of both trenches and of each service trench within the limits of the gas work;
4. That any curbs or sidewalks or other features disturbed shall be repaired to the satisfaction of the DPW;

"Neither National Grid nor any contractor is authorized to close any street or to close a direction of travel to facilitate their work without authorization from the Director of the Department of Public Works or the Highway Superintendent. The Chief of Police can also authorize a closure for a police or fire emergency. Construction zone traffic safety issues are to be addressed by using appropriate traffic control signs and devices and the use of trained traffic control personnel to safely guide traffic through the work zone. If a closure is authorized by the DPW, it shall not be implemented until signs and traffic control officers (where needed) are properly in place in conformity with the written plan prepared by the contractor's engineer and approved by the DPW and the Police Department."

* 4" depth is to be constructed at all locations where the existing pavement depth is 4" or less. At all other locations the thickness of the pavement depth placed shall match the existing pavement thickness. Pavement shall be placed and compacted in courses not to exceed 2 ½ inches.

Councilor Sciascia stated this is one of the worst intersections in town can we see if this can be done sooner while traffic is so much lighter than normal at this time.

Motion: by Councilor Ringius to approve Order 20 026

Second: by Councilor Ryan

Roll Call Vote: For (9 – Boericke, Connors, Flaherty, Hume, Mackin, O'Brien, Ringius, Ryan, Sciascia),

Against (0), Absent (0), Abstain (0)

Mayor Kokoros stated there will be a task force set up for input from this committee and have meetings and define how they will collect information from the public. I intend to have them meet with civic organizations and meetings with district councilors. Both squares in town have unique issues and I intend to have much public input. I want this set up for success and how residents vision the Town of Braintree to be in the future. I want a complete visioning from the residents before we begin putting together the master plan.

Council President Hume referred to the Chairperson of the Committee of Ways & Mean, Councilor Boericke for a recommendation. Councilor Boericke stated the Committee met on this item. We are all in agreement the Master Plan is a priority. We discussed as important as the plan itself will be citizen involvement as well as transparent communication about the plan. I report my financial concerns were alleviated after talking with the Town Auditor. The Ways & Means sends this again to the full Council with 4 in favor and 1 opposed.

Council President Hume asked if any member of the Council or General Public want to speak on Order 20 032?

Councilor Connors asked if public will be allowed to observe these meetings.

Mayor Kokoros stated yes, these meetings should allow for observation and some input at times.

Councilor Mackin asked if the final vote on the Master Plan will be coming to Town Council for a vote.

Mayor Kokoros stated the committee will be giving on-going updates through the Council representative.

I do not have an issue with Town Council receiving a presentation on the Master Plan.

Councilor Mackin asked what statue this it that the Planning Board has the final adoption?

Nicole Taub stated I believe it is with the elements of the Master Plan in Chapter 41, section 81 (d). We will be making sure there are periodic updates to the Town Council and not just one large presentation at the end.

Councilor Sciascia stated I was the no vote in the Committee of Ways & Means but I feel my concerns have been alleviated and I thank Mayor Kokoros to take the time with everything going on to talk with me this weekend about your intent. It is clear to me that you intend to instruct the steering committee group to conduct multiple venues for public input throughout this process. I think it is the one critical piece that will make this project a success. I will be in favor of this at this point.

Councilor O'Brien stated this should come before Council because as I know there is an Executive branch and a Legislative branch and this project is an Executive branch duty, the residents do not understand this. I do have concern over the cost. If we have experts in our Planning Department that can work with some of the documents we already have, I do not see why this can't be capped at \$150,000.

Christine Stickney, Director of Planning & Community Development stated other towns have done it cheaper but we did not look to see if it was just an update to a prior Master Plan. Braintree has a lot of complexities because of the split between residential and business community.

Councilor O'Brien stated I understand this is coming from two separate funding sources but because we are in unprecedented time and I know \$50,000 wouldn't make a big difference but we definitely have less in food tax coming in and we have less in hotel tax coming in. If we can curb it we would be better off.

Councilor Boericke stated those were her very concerns at the last Council meeting. Between then and now I have had the opportunity to speak with our Town Auditors. They alleviated those concerns for me with the expected reduced revenues. They felt we would not overly burden our free cash reserves. The Committee of Ways & Means did address that issue at our meeting last Thursday night.

Councilor O'Brien stated he felt Zoning is where we will have to use the money. This master plan should be able to use some of the existing documents already created.

Christine Stickney stated the new 2020 census is coming out and the existing documents were done when the 2010 census was completed and these documents will be required to be updated with the 2020 census numbers. These census numbers would get plugged in at the end by the consultants.

Shawn McGoldrick, Town Auditor stated \$200,000 was in line with the cost of Master Plans for other communities.

Jill Coyle, Parkside Avenue resident stated I suggest we leave the \$200,000 in for the Master Plan it would be difficult to go back and get more money for the Master Plan if you need it and get stuck with a partial plan that you cannot finish. I would hope we could include the engineers who created the original master plan and could possibly start right away.

Council President Hume asked if any member of the Council or General Public want to speak on Order 20 032?

Council President asked if there is anyone else wishing to speak? Hearing none.

Motion by Councilor Ringius to CLOSE the Public Hearing for Order 20 032

Motion: by Councilor Ringius to CLOSE the Public Hearing for Order 20 032

Second: by Councilor Ryan

Roll Call Vote: For (9 – Boericke, Connors, Flaherty, Hume, Mackin, O'Brien, Ringius, Ryan, Sciascia),
