FROM: Marybeth McGrath, Director of the Health & Building Department 

RE: **PHASE 1: COVID-19 REOPENING REQUIREMENTS**

Please find below the PHASE 1- COVID-19 REOPENING REQUIREMENTS, as follows:

Slowing the spread of COVID-19 requires the cooperation of all of us. The plan to re-open the economy safely requires that everyone do their part, and we expect most people will be diligent about keeping themselves and their neighbors safe and healthy.

Permitted Activities:

Phase 1 of the re-opening plan keeps in place existing restrictions, advisories and guidance, but provides exceptions for certain activities that can resume safely.

What Can Individuals Do?

- A new “stay safer at home” advisory requests that individuals stay at home when they can. However, [all individuals are required to wear a face covering in most places when outside of the home](#). The requirement to wear a face covering is enforceable by the Braintree Health Department.
- All individuals remain subject to the existing order [limiting gatherings to no more than 10 persons](#), except in unconfined outdoor spaces. The restriction on gathering size is enforceable by the Braintree Health Department. This limitation does not apply to workplaces authorized to operate, but more specific capacity and meeting rules will apply.
- Compliance with the mandatory rules outlined above is enforceable by the Braintree Health Department up to and including the issuance of civil fines of up to \$300 per violation.

What Can Businesses Do?

- The businesses listed in the table below will be permitted to resume operations on May 18 or May 25. **All other businesses and workplaces remain closed through Phase 1.** No business is required to re-open and may not reopen until it is ready.
- All operating businesses must comply with general [mandatory workplace safety standards**](#), as well as [sector-specific workplace standards and protocols**](#) where applicable. Note that some specific sector and workplace standards and protocols are mandatory (actions that “must” be taken), while others are best practice guidance (actions that “should” be taken).

May 18	May 25
<ul style="list-style-type: none"> ▪ Essential businesses already operating must self-certify and comply with applicable standards by May 25 or July 1. ▪ Manufacturing ▪ Construction ▪ Retail curbside pickup only ▪ Places of worship (40% occupancy limit) ▪ Firearms retailers and shooting ranges 	<ul style="list-style-type: none"> ▪ Laboratories and life sciences facilities ▪ Offices limited to < 25% maximum occupancy; work from home strongly encouraged. (Boston office opening delayed to June 1.) ▪ Car Washes exterior and self-service only ▪ Hair salons/barber shops by appointment only ▪ Pet grooming by appointment (curbside drop-off and pick-up) ▪ Certain outdoor recreational facilities and activities

Enforcement of Workplace Safety Standards

- Only essential services and businesses specifically designated for reopening can operate in phase 1. In order to open or continue operation, all businesses must:
 - Develop a written COVID-19 safety plan outlining how will prevent the spread of COVID-19.
 - Self-certify that it will operate in compliance with all applicable and mandatory workplace safety standards. [A template is attached to assist you**.](#)
 - Produce this self-certification, if requested, by the Braintree Health Department, Department of Labor Standards (DLS) or Department of Public Health (DPH). Failure or refusal to produce the self-certification upon request is grounds for enforcement action.

- Workplace safety standards are enforced jointly by the local boards of health and DLS. Enforcement can be initiated by either the Braintree Health Department or the DLS, whichever entity is called in first by a person filing a complaint. DLS and each municipal authority shall uniformly apply any enforceable COVID-19 workplace safety rule.

- The goal of enforcement is to educate and promote compliance. It is our hope that establishments will be diligent about compliance with reopening requirements before any enforcement action were to become necessary by the Braintree Health Department or the DLS.

**** To Assist you with reopening requirements, please find attached to this document, the following:**

- Template COVID-19 Safety Control Plan;
- Self-Certification Control Plan Checklist;
- Sector Specific Workplace Safety Standards for Car Washes;
- Car Washes-MA Mandatory Safety Standards;
- Car Washes-MA COVID-19 Checklist;
- Reopening Guidance: Purchasing Hygienic or Protective Supplies for the Workplace;
- Informational from Mass.gov- Reopening: When can my business reopen?

Should you have any questions, please feel free to call the Braintree Health Department at (781) 794-8090 or email: mmcgrath@braintreema.gov , and we will respond back to you as soon as possible.

SECTOR SPECIFIC COVID-19 WORKPLACE SAFETY STANDARDS FOR CAR WASHES As of May 18, 2020

Purpose

This sector specific COVID-19 workplace safety standards for Car Washes are issued to provide owners and operators of Car Washes and workers and customers with instructions to help protect against the spread of COVID-19 as Car Washes re-open.

These standards are minimum requirements only and are not exclusive or exhaustive. The public health data and matrix for disease prevention upon which these guidelines are based can and does change frequently, and it is the responsibility the owner or operator of each Car Wash to stay abreast of any updates to these requirements.

Standards for Responsible Car Washes in Massachusetts:

No activity in Car Washes shall occur without meeting the following minimum sector specific COVID-19 workplace safety standards Car Washes. These standards apply to all Car Washes until rescinded or amended by the State.

The following guidance is organized around four distinct categories covering Social Distancing, Hygiene Protocols, Staffing and Operations; and Cleaning and Disinfecting.

I. Social Distancing

- Ensure at least 6 feet of separation between individuals
- Assign workers to individually designated work areas; increase physical space between workers; stagger work schedules; and, improve ventilation for enclosed spaces where possible (e.g., open doors and windows)
- Stagger lunch and break times, regulating maximum number of people in one place and ensuring at least 6 feet of physical distancing
- Face coverings are required for all workers, except where doing so is unsafe due to medical condition or disability
- Physical partitions are recommended where physical distancing is challenging (e.g., cashier) and should be taller than a standing worker

II. Hygiene Protocols

- Ensure access to handwashing facilities on site, including soap and running water, wherever possible and allow sufficient break time to wash hands frequently; alcohol-based hand sanitizers with at least 60% alcohol may be used as an alternative
- Supply workers at workplace location with adequate cleaning products (e.g., sanitizer, disinfecting wipes)

- Require frequent cleaning and sanitation of all high-touch areas such as desks, door handles, and restrooms
- Post visible signage throughout the site to remind workers of the hygiene and safety protocols

III. Staffing and Operations

- Provide training to workers on car wash safety standards, up-to-date safety information and precautions including hygiene and other measures aimed at reducing disease transmission
- Limit washing services to external surfaces of the vehicle
- Customers should line up in their cars at facilities with automated car washing
- Customers should stay in their cars throughout the car wash process
- Adjust workplace hours and shifts (leverage working teams with different schedules or staggered arrival / departure) to minimize contact across workers and reduce congestion at entry points
- Maintain a log of workers and customers to support contact tracing (name, date, time, contact information)
- Workers must stay home if feeling ill
- Workers who are particularly vulnerable to COVID-19 according to the Centers for Disease Control (e.g., due to age or underlying conditions) are encouraged to stay home
- Workers are strongly encouraged to self-identify symptoms or any close contact to a known or suspected COVID-19 case to their employer
- Encourage workers who test positive for COVID-19, to disclose to the employer of the office for purposes of cleaning / disinfecting and contact tracing. If the employer is notified of a positive case at the workplace, the employer should notify the local Board of Health (LBOH) where the workplace is located and work with them to trace likely contacts in the workplace and advise workers to isolate and self-quarantine. Testing of other workers may be recommended consistent with guidance and / or at the request of the LBOH
- Notify workers and customers of important health information and relevant safety measures as outlined in government guidelines
- Encourage contactless payment methods

IV. Cleaning and Disinfecting

- Conduct frequent cleaning and disinfection of site (at least daily and more frequently if feasible)
- Keep cleaning logs that include date, time, and scope of cleaning
- Conduct frequent disinfecting of heavy transit areas and high-touch surfaces (e.g., doorknobs, bathrooms)
- In event of a positive case, shut down site for a deep cleaning and disinfecting of the workplace in accordance with current CDC guidance

MANDATORY SAFETY STANDARDS

SOCIAL DISTANCING

Ensure at least 6 feet of separation between individuals

Assign workers to individually designated work areas; increase physical space between workers; stagger work schedules

Stagger lunch and break times, regulating maximum number of people in one place and ensuring at least 6 feet of physical distancing

Face coverings are required for all workers, except where doing so is unsafe due to medical condition or disability

Physical partitions are recommended where physical distancing is challenging (e.g., cashier) and should be taller than a standing worker

Recommended best practices

Improve ventilation for enclosed spaces where possible (e.g., open doors and windows)

HYGIENE PROTOCOLS

Ensure access to handwashing facilities on site, including soap and running water, wherever possible and allow sufficient break time to wash hands frequently; alcohol-based hand sanitizers with at least 60% alcohol may be used as an alternative

Supply workers at workplace location with adequate cleaning products (e.g., sanitizer, disinfecting wipes)

Require frequent cleaning and sanitation of all high-touch areas such as desks, door handles, and restrooms

Post visible signage throughout the site to remind workers of the hygiene and safety protocols

STAFFING & OPERATIONS

Provide training to workers on car wash safety standards, up-to-date safety information and precautions including hygiene and other measures aimed at reducing disease transmission

Limit washing services to external surfaces of the vehicle

Customers should line up in their cars at facilities with automated car washing

Customers should stay in their cars throughout the car wash process

Adjust workplace hours and shifts (leverage working teams with different schedules or staggered arrival / departure) to minimize contact across workers and reduce congestion at entry points

Maintain a log of workers and customers to support contact tracing (name, date, time, contact information)

Workers must stay home if feeling ill

If the employer is notified of a positive case at the workplace, the employer should notify the Local Board of Health (LBOH) where the workplace is located and work with them to trace likely contacts in the workplace and advise workers to isolate and self-quarantine. Testing of other workers may be recommended consistent with guidance and / or at the request of the LBOH

Post notice to workers, and customers of important health information and relevant safety measures as outlined in government guidelines

Recommended best practices

Workers who are particularly vulnerable to COVID-19 according to the Centers for Disease Control (e.g., due to age or underlying conditions) are encouraged to stay home

Workers are strongly encouraged to self-identify symptoms or any close contact to a known or suspected COVID-19 case to their employer

Encourage workers who test positive for COVID-19, to disclose to the employer of the office for purposes of cleaning / disinfecting and contact tracing

Encourage contactless payment methods

CLEANING & DISINFECTING

Conduct frequent cleaning and disinfection of site (at least daily and more frequently if feasible)

Keep cleaning logs that include date, time, and scope of cleaning

Conduct frequent disinfecting of heavy transit areas and high-touch surfaces (e.g., doorknobs, bathrooms)

In event of a positive case, shut down site for a deep cleaning and disinfecting of the workplace in accordance with current CDC guidance

CAR WASHES

MA COVID-19 Checklist

SOCIAL DISTANCING

Ensure >6ft between individuals

- Ensure at least 6 feet of separation between individuals
- Assign workers to individually designated work areas; increase physical space between workers; stagger work schedules
- Improve ventilation for enclosed spaces where possible (e.g., open doors and windows)
- Stagger lunch and break times, regulating maximum number of people in one place and ensuring at least 6 feet of physical distancing
- Require use of face coverings for all workers, except where doing so may introduce a safety hazard to workers or where an individual is unable to wear a face covering due to a medical condition or disability
- Physical partitions are recommended where physical distancing is challenging (e.g., cashier) and should be taller than a standing worker

HYGIENE PROTOCOLS

Apply robust hygiene protocols

- Ensure access to handwashing facilities on site, including soap and running water, and allow sufficient break time for workers to wash hands to frequently; alcohol-based hand sanitizers with at least 60% alcohol may be used as an alternative
- Supply workers at workplace location with adequate cleaning products (e.g., sanitizer, disinfecting wipes)
- Require regular and not less than daily cleaning and sanitation of all high-touch areas such as workstations, door handles, and restrooms
- Post visible signage throughout the site to remind workers of the hygiene and safety protocols

STAFFING & OPERATIONS

Include safety procedures in the operations

- Provide training to workers on car wash safety standards, up-to-date safety information and precautions including hygiene and other safety measures
- Limit washing services to external surfaces of the vehicle
- Request customers to line up in their cars at facilities with automated car washing
- Request customers to stay in their cars throughout the car wash process
- Adjust workplace hours and shifts (if working in-person, leverage working teams with different schedules or staggered arrival / departure) to minimize contact across workers and reduce congestion at entry points
- Maintain a log of workers and customers to support contact tracing (name, date, time, contact information)
- Ensure that workers feeling ill stay home. Encourage workers who are particularly vulnerable to COVID-19 according to the Centers for Disease Control (e.g., due to age or underlying conditions) to stay home
- Encourage workers to self-identify symptoms or any close contact to a known or suspected COVID-19 case to the employer
- Encourage workers who test positive for COVID-19 to disclose to the employer of the office for purposes of cleaning / disinfecting and contact tracing. If the employer is notified of a positive case at the workplace, the employer shall notify the Local Board of Health (LBOH) and work with them to trace likely contacts in the workplace and advise workers to isolate and self-quarantine. Testing of other workers may be recommended consistent with guidance and / or at the request of the LBOH
- Post notice to workers and customers of important health information and relevant safety measures as outlined in government guidelines
- Encourage contactless payment methods

CLEANING & DISINFECTING

Incorporate robust hygiene protocols

- Conduct frequent cleaning and disinfection of site (at least daily and more frequently if feasible)
- Keep cleaning logs that include date, time, and scope of cleaning
- Conduct frequent disinfecting of heavy transit areas and high-touch surfaces (e.g., doorknobs, bathrooms)
- In event of a positive case, shut down site for a deep cleaning and disinfecting of the workplace in accordance with current CDC guidance

COVID-19 Control plan

All businesses in the state of MA must develop a written control plan outlining how its workplace will comply with the mandatory safety standards for operation in the COVID-19 reopening period. This template may be filled out to meet that requirement. Control plans do not need to be submitted for approval but must be kept on premise and made available in the case of an inspection or outbreak.

All individually listed businesses must complete a control plan, even if the business is part of a larger corporation or entity.

BUSINESS INFORMATION | please provide the following information

Business name: _____ Check if part of a larger corporation

Address: _____

Contact information (Owner/Manager): _____

Contact information (HR representative), if applicable: _____

Number of workers on-site: _____

SOCIAL DISTANCING | check the boxes to certify that you have:

- Ensured that all persons, including employees, customers, and vendors remain at least six feet apart to the greatest extent possible, both inside and outside workplaces
- Established protocols to ensure that employees can practice adequate social distancing
- Posted signage for safe social distancing
- Required face coverings or masks for all employees
- Implemented additional procedures. Please describe them here: _____

HYGIENE PROTOCOLS | check the boxes to certify that you have:

- Provided hand washing capabilities throughout the workplace
- Ensured frequent hand washing by employees and provided adequate supplies to do so
- Provided regular sanitization of high touch areas, such as workstations, equipment, screens, doorknobs, restrooms throughout work site
- Implemented additional procedures. Please describe them here: _____

COVID-19 Control plan

All businesses in the state of MA must develop a written control plan outlining how its workplace will comply with the mandatory safety standards for operation in the COVID-19 reopening period. This template may be filled out to meet that requirement. Control plans do not need to be submitted for approval but must be kept on premise and made available in the case of an inspection or outbreak.

All individually listed businesses must complete a control plan, even if the business is part of a larger corporation or entity.

STAFFING & OPERATIONS check the boxes to certify that you have:

- Provided training for employees regarding the social distancing and hygiene protocols
- Ensured employees who are displaying COVID-19-like symptoms do not report to work
- Established a plan for employees getting ill from COVID-19 at work, and a return-to-work plan
- Implemented additional procedures. Please describe them here: _____

CLEANING & DISINFECTING check the boxes to certify that you have:

- Established and maintained cleaning protocols specific to the business
- Ensured that when an active employee is diagnosed with COVID-19, cleaning and disinfecting is performed
- Prepared to disinfect all common surfaces at intervals appropriate to said workplace
- Implemented additional procedures. Please describe them here: _____

Important

In order to reopen your business, please complete and sign the following checklist once you have completed your COVID-19 Control Plan template

The following poster should be displayed in an area within the business premises that is visible to employees and visitors. Thank you for your efforts to get back to business while keeping Massachusetts safe

Welcome

Please know that we take our responsibility to keep Massachusetts safe very seriously. Be assured we have taken the following steps to comply with state mandatory safety standards for workplaces:

Workers are wearing face coverings and we've put social distancing measures in place

We provide hand washing capabilities and we are regularly sanitizing high-touch areas

Our staff has received training regarding social distancing and hygiene protocols

We have established thorough cleaning and disinfecting protocols

We ask you to do your part as well by wearing your face mask and maintaining social distance. Thanks—and we hope to see you again soon.

Reopening: Purchasing Hygienic or Protective Supplies for the Workplace

These resources are provided to help inform employers and employees about supplies needed to return to workplaces, and connect businesses with manufacturers and distributors. In order to operate in Reopening Phase 1 and all future phases, certain supplies are required.

- Already know what you need to buy? [Find your vendor](#) ([/info-details/reopening-purchasing-hygienic-or-protective-supplies-for-the-workplace#who-sells-hygienic-and-protective-supplies?](#))

TABLE OF CONTENTS

[\(#what-if-i-m-a-manufacturer-of-these-supplies-and-want-to-be-added-to-the-vendor-list-above?-\)](#)

What supplies do I need to reopen my business or return to work?

As an employer, you must:

1. Require masks and coverings for all employees
2. Provide handwashing supplies and capabilities
3. Sanitize high touch areas, such as workstations, equipment, screens, doorknobs, restrooms throughout work site

Additional mandatory workplace safety standards can be found [here \(/info-details/reopening-mandatory-safety-standards-for-workplaces\)](#).

As an **employee**, you must wear a face covering or mask at your workplace.

How to wear a face covering or mask:

Use anything that covers your nose and mouth, but leave N95's for healthcare workers

Face coverings and masks should fit snugly, be secured with ties or ear straps, and not restrict breathing. Only touch the ties or ear straps, not the front, and wash your hands after handling.

Remember, a **face covering** can include anything that covers your nose and mouth, including dust masks, scarves and bandanas.

Proper hand-washing techniques:

Generally, **hand hygiene** is much more important than gloves. You will need to ensure frequent hand washing by employees and adequate supplies to do so.

Clean things that are frequently touched (like doorknobs and countertops) with household cleaning spray or wipes.

Additionally, **disinfecting and sanitizing** are an important part of workplace safety.

Detailed industry reopening plan

The following detailed commentary is related to the Executive Order signed by Governor Baker on May 18, 2020. This document is intended to provide additional information on businesses and activities summarized in the Reopening Massachusetts report. This is not an exhaustive list of all possible businesses that can open in each phase; it may be updated from time to time.

For additional information please visit the Reopening Massachusetts website www.mass.gov/reopening

(C:/Users/lang%20brandon/AppData/Local/Microsoft/Windows/INetCache/Content.Outlook/Y3Q23ENK/www.mass.gov/reopening)

Unless otherwise stated, businesses expected to be allowed to open in future phases will be subject to certain limitations and guidelines that will be provided at a later date. All businesses are required to follow Mandatory Workplace Safety Standards and Sector specific safety protocols and best practices. All of this information is subject to revision based on the latest public health data.
