

# TOWN OF BRAINTREE

## IN COUNCIL

ORDER NO: 12-048

DATE: October 12, 2012

ORDERED: NATIONAL GRID

### PETITION OF NATIONAL GRID FOR GAS MAIN LOCATIONS

The National Grid hereby respectfully request your consent to the locations of mains as hereinafter described for the transmission and distribution of gas in and under the following public streets, lanes, highways, and places of the Town of Braintree and the pipes, valves, governors, manholes and other structures, fixtures and appurtenances designed or intended to protect or operate said mains and accomplish the objects of said Company; and the digging up and opening the ground to lay or place same:

**To install and maintain approximately 215 feet, more or less of 2 inch gas main in Davis Road, Braintree from the existing 2 inch gas main at Blossom Road Westerly to House #69 for a new gas service.**

**Petition #12 048 was unanimously approved by Council with the following conditions:**

**DPW: Davis Road is scheduled to be shimmed and micro-surfaced next year (2013). Crack sealing has been installed and the shim course will be placed in April or May. National Grid's proposed trench repair calls for a temporary 3" binder course to be removed after the winter and be replaced by an 8" total depth permanent trench repair with infra-red sealed edges. Since we will be shimming the roadway, this seems like overkill. It is our recommendation that this petition should be approved with a requirement that it be completed as soon as possible, no later than this Fall, and without the temporary repair and instead with a final hot mix asphalt pavement at least 4" deep, placed in two layers, and being maintained flush with the surrounding pavement (do not leave the trench down). No further work would be required if that repair holds up. However, if the trench is not neatly at the correct line and grade after the winter, then a 1 ½ inch grind and inlay to neat lines one foot beyond the trench limits will be required to facilitate the Town's work. The bulk of the trench will be in the grass shoulder. National Grid will have to repair that part of the job now to keep runoff from entering the work area and causing erosion problems, etc. and will have to come back in the Spring to re-establish turf. It may be more cost-effective and beneficial to the abutters to finish the repair this Fall with installation of sod.**

**ORDER FOR GAS MAIN LOCATION**

**Town of Braintree/ Town Council:**

IT IS HEREBY ORDERED that the locations of the mains of the Nationalgrid for the transmission and distribution of gas in and under the public streets, lanes, highways, and places of the **Town of Braintree** substantially as described in the petition dated October 11, 2012 attached hereto and hereby made a part hereof, and of the pipes, valves, governors, manholes and other structures, fixtures and appurtenances designed or intended to protect or operate said mains and/or accomplish the objects of said Company, and the digging up and opening the ground to lay or place same, are hereby consented to and approved.

The said Nationalgrid shall comply with all applicable provisions of law and ordinances of the **Town of Braintree** applicable to the enjoyment of said locations and rights.

Dated this 20<sup>th</sup> day of November, 20 12.

I hereby certify that the foregoing order was duly adopted by the Town Council of the City of Braintree, MA on the 20<sup>th</sup> day of November 20 12.  
Town
